305.1 PURPOSE AND SCOPE

Media review is beneficial in the preparation and reports in documenting events. The following procedure will describe what types of items are included in a media review and the officer/supervisor's responsibilities in the review process.

305.2 MEDIA REVIEW

Officers should keep in mind when preparing reports and giving statements that such media, while helpful in preparing reports and documenting events, is rarely a complete reproduction of the events. Furthermore, such media does not typically document important concerns such as an officer's state of mind during the events or the context in which the events were occurring.

The Department retains the right to prohibit or limit officers from viewing recordings if the incident is under review for the purposes of determining if there is officer misconduct and the viewing of the video would interfere with investigative best practices.

305.2.1 PROCEDURE

A media review will include all audio and/or media of the events including the following:

- (a) Video or audio recordings of the actual events and the officer's own observations.
- (b) Photographs and electronic data such as ECD data downloads.
- (c) Download the ECD information into the Department ECD database.

305.2.2 OFFICER'S RESPONSIBILITY

- (a) Officers will assure that the original media is maintained in a secure manner and is not altered in any manner during the review process. Officers will request assistance from supervisors in obtaining access to any existing media if the officer is unfamiliar with the safe and secure manner of retrieval of the particular media.
- (b) When an officer submits a report containing documentation of their actions or observations based on the review of available media, officers will list in their report all of the media which has been reviewed.
- (c) In circumstances where an officer has previously prepared and submitted a report about the events to a supervisor prior to reviewing media that is determined to exist, the original report will be maintained and any additional or varying observations and information will be submitted in a supplemental report.

305.2.3 SUPERVISOR'S RESPONSIBILITY

- (a) Supervisors shall assist the officer in obtaining access to media items and in maintaining the integrity of the media evidence.
- (b) Supervisors shall be responsible for ensuring that officers have access to the media for review prior to the writing of their report.

Gardena Police Department

Gardena Procedures Manual

Officer-Involved Shooting

- (c) Supervisors shall be responsible for ensuring that the officer's report includes all the media which was reviewed prior to the writing of that report.
- (d) A supervisor may decide to delay review of media in circumstances that raise extraordinary concerns such as destruction of evidence. In such circumstances, a command level officer will be consulted promptly to discuss any potential concerns and will make a determination as to the appropriateness of the media review.
- (e) During recorded interviews regarding any event, the interviewer should establish what media, if any, the officer being interviewed has reviewed.
- (f) Where specific policy exists with regard to access or operation of technology or equipment, officers and supervisors shall follow the specific policy relevant thereto with regard to such technology or equipment.

310.2 EMERGENCY PROTECTIVE ORDER

An Emergency Protect Order may be issued telephonically and remain in force until the end of the fifth court day or seventh calendar day.

310.3 RECOMMENDATION

An Emergency Protective Order may be recommended when an investigating officer determines that an emergency exists, whether the suspect is at large or in custody, in all cases of domestic violence involving threats of violence; and, the investigating officer has reason to believe that there is a high likelihood that the threats of violence will continue or be carried out resulting in harm to the victim and/or household members. (EPO's may also be issued for child abuse: Family Code §6250).

310.4 OBTAINING AN EMERGENCY PROTECTIVE ORDER

- (a) Once the handling officer at the scene determines that an EPO is warranted, the officer shall notify a supervisor of the circumstances. If the supervisor concurs with the handling officer, he/she shall initiate the application for the EPO and contact the on-call Superior Court representative to obtain the order. Any doubt regarding the justification for the order shall be resolved by contacting the court representative. The on-call court representative may be a judge, commissioner, or court appointed referee.
- (b) EPO's may be obtained twenty-four (24) hours a day, seven days a week, whether the court is in session or not. The County operator (213) 974-1234 will connect the officer or supervisor to the on-duty court representative.

If the officer cannot serve the restrained party, he/she should either leave the EPO with the protected party or give it to a supervisor so he/she can assign the service of the EPO to the next shift. - (d) Articulate evidence of mental instability on the part of the parents, guardian, or responsible relative.
- (e) Articulate evidence that indicates the parent, guardian, or responsible relative may try to retrieve the child and flee.

Victim and Witness Assistance

318.1 PURPOSE AND SCOPE

The objective of the Witness Protection Program, coordinated by the Los Angeles County District Attorneys Office, is to expand the capability of the Gardena Police Department to successfully prosecute criminals on trial through the protection of witnesses and their families.

The following procedure will be used when an officer is faced with a witness to a crime who is being threatened.

318.2 WITNESS PROTECTION PROGRAM

The Witness Protection Program is intended to assist local law enforcement agencies and prosecutors who do not have other resources available to protect witnesses. The program consists of different funding sources, each with their own criteria and restrictions. The individual circumstances of the request coupled with the witnesses' needs will necessarily dictate which funding source meets this criteria and is within the guidelines of the funding resources.

The objective of the Witness Protection program, coordinated by the Los Angeles County District Attorney's Office, is to expand the capability of local law enforcement to successfully prosecute criminals on trial through the protection of witnesses and their families. The program will enable the District Attorney's Office to make funds available to local law enforcement and prosecution agencies in Los Angeles County for this purpose.

318.2.1 CRITERIA

The following criteria must be met in order to obtain approval of funding for the protection of the endangered witness and/or family, endangered friends or associates of the witness:

- (a) Witness or witness' family, endangered friend(s) or associate(s) has been threatened; or,
- (b) An actual threat to safety and witness or witness' family, friends or associates exists; and,
- (c) Criminal charges either have been filed, or there is a strong likelihood that charges will be filed against a defendant; and,
- (d) The witness will reasonably be expected to be called or has been called to testify against the defendant; and,
- (e) The witness must cooperate at all stages of the proceedings and may be required to sign a witness agreement specifying their responsibilities for protection services.

Note: The fact that a witness was an active or passive participant in the underlying charges giving rise to the need for witness protection does not necessarily disqualify their participation in the program.

Only law enforcement agencies and prosecutors, and their investigators, are eligible for assistance under the provisions of the Witness Protection Program.

Gardena Procedures Manual

Victim and Witness Assistance

318.2.2 FUNDING

The Witness Protection funds are limited to endangered witnesses (etc., pursuant to the criteria) only and cannot be utilized for indigent witnesses. Assisted agencies will be required to formally account for funds expended for witness protection in the form of a letter accompanied by original vouchers or receipts, which will substantiate expenditures. Every effort should be made to ensure the receipts are legitimate and correctly reflect the approved expenses.

318.2.3 PROCESS

Except in unusual circumstances, the investigating officer from the law enforcement agency, which requested the filing of the case, must process requests for witness relocation. This should be done as soon as possible after the threatening situation develops.

Liaison - Law enforcement agencies requesting witness protection, including relocation approval, will be responsible for liaison with the witness(es), securing their cooperation, obtaining any needed documents or information and coordinating their relocation.

Approval - All requests for witness protection must be approved in advance and no promises or commitments should be made to a witness prior to approval. The final decision as to whether the request for witness protection is necessary or appropriate, lies with the Program Director (LA County District Attorney's Office) or his/her designee.

Reimbursement - Only those expenses articulated in the agreement, and in the amounts approved for relocation and other essential expenses determined to be appropriate, are reimbursable. Any other additions, modifications or changes must be approved in advance.

Receipts must be those issued in the normal course of business and contain sufficient information to allow for identification of approved expense, including date, place (address), nature of expense and person issuing receipt, if appropriate.

318.2.4 PROTECTION OF ENDANGERED WITNESS

All requests and court orders for witness protection will be assigned to the Detective Bureau. The Detective Bureau Commander in cooperation will determine the method and level of security with the investigating officer(s). Necessary personnel and equipment may be secured from other divisions/bureaus within the department as deemed appropriate for the protection of the witness.

318.2.5 OBTAINING ASSISTANCE (PROCESS)

The process for obtaining assistance in witness protection commences with the submission of an Assistance Request Form (LA District Attorney Form) in person.

The requests are to be submitted to the Program Director:

Los Angeles County District Attorney's Office

Assistant Chief, Bureau of Investigation

210 West Temple St., Room 17-1103

Los Angeles, CA 90012

Victim and Witness Assistance

(213) 974-3603

(Must telephone for an appointment)

Requests for Witness Protection: Unless other arrangements have been made, all requests must be made in person and all elements required must be presented. In all cases, the requests must be sufficiently detailed and informative in order for a decision to be made. Insufficient details will result in delays in the processing of requests.

Requests for assistance will be reviewed promptly and on a “first-come, first-served” basis. The review will be conducted to insure that the requesting agency has provided sufficient detail to allow for approving action to be taken and that witnesses meet the program’s conditions.

Prior to Filing a Case: If it is determined, prior to filing a case, which a witness is in imminent danger, the witness may be relocated under this program provided all other conditions are met and there is a likelihood that the case will eventually be filed. It should be justified why this need exists and also must include a pre-filing review by a deputy district attorney.

Case Pending in Court: The Program Director will determine if the witness qualifies for assistance, and if so, will authorize reimbursement in a specified amount for costs incurred by the law enforcement agency to protect the witness.

The law enforcement agency may then relocate the witness using agency funds and be reimbursed by the District Attorney’s Office for monies expended up to the amount authorized. Receipts for all expenditures must be provided for reimbursement.

Case in Trial: The Program Director will determine the specific amount to be used for protection and relocation of the witness. The Deputy District Attorney prosecuting the case will itemize the expenses authorized. The Order for Payment will be presented to the court for payment authorization by the judge. The agency will be reimbursed based upon the order of the judge.

318.2.6 REIMBURSEMENTS ALLOWED

Agencies, whose request(s) for assistance are approved, will be reimbursed for costs related to the relocation as per the agreement for the protected witness and their family. The Program Director or his/her designee must approve any change or modification to the original agreement in advance. Relocation costs for lodging, food, transportation, and related costs, are described as follows:

- (a) Potential costs associated with emergency witness relocation for lodging, food, transportation, travel, moving expenses, etc., must be justified and approved separately.
- (b) In some cases, individual receipts for food may be waived in lieu of the officer obtaining a receipt from the witness for the approved amount of cash given directly to the witness exclusively for food as per the agreement.
- (c) Reimbursements for transportation will be limited to travel to and from the jurisdiction in which the witness is testifying and the secure area where the witness is being safeguarded.

Gardena Police Department

Gardena Procedures Manual

Victim and Witness Assistance

- (d) With prior approval, agencies may be reimbursed for the rental of trailers and vans required for permanent relocation and movement of household goods.
- (e) Special reimbursement may also be approved for armed protection or escort by law enforcement officials or security personnel before, during or subsequent to legal proceedings and for prolonged expenses such as housing, basic living expenses and health care.
- (f) Costs associated with obtaining appropriate documents to establish a new identity.
- (g) Transportation and storage costs for personal possessions.

Note: Only those expenditures substantiated by original receipts will be reimbursed.

318.2.7 REIMBURSEMENT PROCEDURES

The following procedures must be followed in order to process requests for witness protection reimbursement:

- (a) Agencies may be reimbursed on a one-time full payment or in partial payments. Partial payments are authorized to assist agencies whose budgets do not allow for prolonged outputs of funds in protecting witnesses. In either case, one-time payment or partial payments, the same procedures apply.
- (b) Agencies requesting payment should prepare a letter under the agencies letterhead containing the required elements for reimbursement. The letter should be signed by the agency head or designated ranking officer.
- (c) Reimbursement requests submitted in person will be reviewed within twenty-four (24) hours and, if approved, payment will be made shortly thereafter.
- (d) Payment of claims for reimbursement submitted by requesting agencies will be authorized by the Program Director or designee. all materials will be reviewed for accuracy and propriety of expenditure and as to form.

322.16 COURTESY REPORTING PROCEDURES

In the event the victim of a crime that has occurred within another jurisdiction contacts personnel of this agency and requests that a police report be initiated, the seriousness of the crime shall be evaluated prior to action being taken. 322.17 AFTER ACTION REPORTS

An After Action Report is designed to document an unusual event, allow the Department to evaluate its response, and prepare to handle events of a similar nature in the future. 322.17.2 MAJOR INCIDENT DEFINED

Any incident report, which deals with any city facility, will be identified by the Watch Commander and brought to the attention of the Administrative Services Bureau Commander.

News Media Relations

323.1 PURPOSE AND SCOPE

Providing prompt and accurate information to the public via the media is of the utmost importance. This procedure will provide the Public Information Officer (PIO) information on how to handle different types of situations involving the media.

323.2 PUBLIC INFORMATION OFFICER

During major incidents, investigations and disasters, the PIO shall remain accessible to the media so that Department personnel can perform their tasks uninterrupted by PIO in meeting the needs of the Department and the news media.

During periods outside the normal working hours of the PIO, the Patrol Watch Commander, Acting Watch Commander, or their designee shall function in the capacity, of PIO.

323.3 RELEASE OF INFORMATION: GENERALLY

The Records Bureau Manager shall maintain a current file containing information from daily activity reports, and crime reports. The PIO, Records Manager or a designee, who shall verify the credentials of the reporters, shall make information from this file available to news reporters. The Records Bureau Manager and the PIO may release information either verbally or in writing.

323.4 NEWSWORTHY INCIDENTS

323.4.1 CODE 20

A Code 20 is a notification to the news media of an immediate newsworthy incident.

When a newsworthy incident occurs in the field, it shall be the responding field officer's responsibility to notify a supervisor of such occurrence. The supervisor shall obtain pertinent elements of the newsworthy incident and determine if release of information regarding this incident (Code 20) is in the public interest and that of the Department. Depending upon the magnitude of such incident, the availability of personnel or other exigencies, the Watch Commander shall be responsible for advising the media, and/or PIO of the incident. If the Watch Commander issues a Code 20 media notification regarding the incident, independently of the PIO, all media notifications shall be recorded in the Watch Commander's log.

323.4.2 MEDIA NOTIFICATION LIST

The PIO shall compile and keep current a list of news agencies and wire services for use in Code 20 notifications. A copy of this list shall be maintained in the Watch Commander's office.

323.5 MAJOR INCIDENTS: PIO RECALL

At the direction of a Division Captain, the PIO or a designee shall respond to the scene of major incidents to coordinate release of information to the media. The information will also be released by Nixle. In the event of major incidents such as officer-involved shootings, hostage incidents or

Gardena Police Department

Gardena Procedures Manual

News Media Relations

natural disasters, the PIO may be subject to emergency recall and shall respond as directed by the Division Captain.

323.6 PIO NOTIFICATION: NEWS RELEASE OR INTERVIEW

The PIO shall be advised of any news releases or media interviews originating anywhere in the Police Department. It shall be the responsibility of the person authorizing the release or interview to ensure that the PIO is notified. The notification may be made verbally when the PIO is on duty, by internal memorandum, or Chief's Log entry. The purpose of the notification is to ensure that consistent and accurate information is disseminated to the media.

323.7 NEWS RELEASES: SPECIAL BULLETINS

Quite frequently, news releases will be made in written form by means of special bulletins. The PIO is generally responsible for the creation of special bulletins, but they may be generated anywhere within the Department. Special bulletins shall be issued on the approved Departmental form and the release of such bulletins shall be coordinated through the PIO. The PIO shall maintain a file containing a numbered copy of each special bulletin released by the Department.

323.8 NEWS MEDIA EXCLUSIVES

Generally, information shall be furnished equitably to all members of the media in a timely and accurate manner. Members of the Department shall not assist reporters in originating exclusive news stories. Occasionally, however, a reporter may be independently aware of events involving the Police Department and begin "enterprising" a story for the exclusive use of the reporter's employer. Every effort should be made to respond appropriately to inquiries made by the reporter without compromising the integrity of the story by bringing it to the attention of a competing news agency. Absent circumstances warranting general release of information, police personnel shall not volunteer the same story to competing media nor issue a release on the same material until the reporter has used the story.

In the event a second reporter inquires about the same story, appropriate responses shall be given, and the second reporter shall be told that the information has already been given to someone else and cannot be considered exclusive. The first reporter shall then be advised of the circumstances of the second inquiry.

323.9 SPECIAL FEATURE NEWS STORIES

Requests for Police Department cooperation for feature news stories or commercial productions shall be referred to the PIO. The PIO may accommodate such requests on approval of the Chief of Police after determining that no conflict of interest, no undue loss of time from Departmental personnel, no other undesirable or disruptive factors are involved, and that the feature story is in the best interest of the community and the Department.

News Media Relations

323.10 NEWS CONFERENCES

From time to time, activities of members of the Gardena Police Department will be of such note that it is in the interest of the Department and the public to call a news conference. The PIO or designee shall coordinate all news conferences. Prior to any news conference, individuals most familiar with the information to be disseminated shall brief the PIO. Police management and/or the PIO shall determine who will address the conferees and what information will be released. The PIO will ensure that equal access is provided to all members of the media and, when appropriate, that media pool equipment is fairly coordinated.

323.11 MEDIA ACCESS TO CUSTODY FACILITIES

The media has no special right to enter any Gardena Police Department Custody Facility.

Requests for any Gardena Police Custody Facility to be the subject of a feature article shall be referred to the PIO. The PIO shall accommodate such requests only on approval of police management. The PIO or a designee shall coordinate media access and coverage of custody facilities. Because access by the media to custody facilities must be closely monitored, prisoners' privacy must be maintained and facility security must not be compromised, such access is extremely labor intensive for police personnel. Cost, availability of personnel, and safety concerns are factors that must be evaluated when considering approval of media access to custody facilities.

News media recording devices, such as video cameras, tape recorders or still cameras shall not be allowed inside any Gardena Police Department custody facility except by approval of police management.

323.12 PUBLIC INFORMATION

This information is considered to be public information and shall be released to the public, except to the extent that disclosure of a particular item of information would endanger the safety of a person involved in an investigation, or would endanger the successful completion of the investigation, or a related investigation.

Patrol Function Procedures

400.1 PURPOSE AND SCOPE

- Unit assignments and patrol beats
- Handling animal calls
- Alarm response
- Responsibilities of the front desk officer
- Communications
- Medical care for arrestees
- Advisement of Constitutional Rights
- Scheduling
- Use of Electronic Stakeout Tracker

400.2 PATROL BEATS

The City of Gardena is divided into six (6) primary patrol beats and are numbered one (1) through six (6). There are three (3) secondary overlap beats, numbered seven (7) through nine (9) that supplement the beat deployment when sufficient personnel are on duty.

400.2.1 PRIMARY UNIT ASSIGNMENTS

Patrol units are designated according to the number of officers assigned to the shift, assigned beat and watch designation. The number eight (8) designates the City of Gardena, the letter (L) designates a one-officer unit and the letter (A) designates a two-officer unit; the number (1-6) designates the assigned beat. The letter (D) designates Day Watch, the letter (S) designates Swing Shift and the letter (M) designates Night (Morning) Watch. For example, a Gardena patrol unit, with a single officer working Beat 1 on the day watch would be designated: 8-L-1-D.

400.3 ANIMAL CONTROL

The Gardena Police Department contracts with the Los Angeles County Animal Control for animal control services. Specific details of that service are enumerated in the current contract.

When the County Animal Control is closed, the Police Department will be responsible for receiving and coordinating the response to animal control calls for service. Non-emergency calls for service maybe handled by the Police Department or, if the request does not require immediate attention, transferred to the County Animal Control the following day (during normal business hours). A unit will be dispatched to those incidents requiring an immediate investigation. A determination will then be made if County Animal Control after-hours representative needs to respond. Killing animals that are seriously injured or pose a real threat to the safety of humans by the use of deadly force is approved when no other disposition is practical. The safety of bystanders must be given prime consideration.

400.3.1 LOS ANGELES COUNTY ANIMAL CONTROL RESPONSIBILITIES

The Los Angeles County Animal Control is responsible for conducting preliminary investigations and handling all routine complaints involving animals. Outside normal business hours, County Animal Control will respond to the following types of emergency incidents:

- (c) Complaints of vicious or suspected rabid animals
- (d) Incidents involving bovine, equine, and unusual animals (e.g., monkeys, strange or uncommon fowl, and rattlesnakes)
- (e) Any other situation involving animals or fowl, which requires immediate action, and the officer, is not equipped to handle it (i.e., prisoners' property, person dead).

County Animal Control will also respond, at the request of the Police Department, to locations outside of Gardena if an animal is known to exist at a residence (or vehicle) involved in a criminal investigation, and the animal requires protective housing. If possible, the Police Department should provide sufficient advance notice when requesting this type of service.

400.3.2 INJURED ANIMALS

In the case where an animal is injured and the owner cannot be located within a reasonable period of time, the animal shall be transported to a veterinary hospital. County Animal Control is responsible for handling injured animals; however, the officer may transport the injured animal if it is feasible to do so.

County Animal Control should be notified any time there is an injured animal that is too large to transport. County Animal Control will assume responsibility for transportation the disposition of the animal's body.

400.3.3 ANIMAL CONTROL LEASH LAW VIOLATIONS

Generally, absent an immediate threat to public safety, County Animal Control will not respond to unleashed dog incidents unless the animal has been contained. Personnel should gain supervisory approval and exercise discretion before attempting to contain animals that do not pose an immediate threat to public safety.

400.3.4 ANIMAL RELATED INCIDENT REPORTS

The Police Department may initiate a police report whenever the circumstances indicate a report is necessary. A police report may be appropriate in the following circumstances:

- (a) All Penal Code violations involving animals
- (b) All incidents in which weapons or deadly force is used against animals or fowl
- (c) All aggravated complaints of barking dogs, leash law violations, property damage or other disturbances involving animals or fowl
- (d) All incidents of animals injuring or attacking people or suspected rabid animals.

400.3.5 ARREST/CUSTODIAL CASES / RESPONSIBILITY FOR ANIMALS

Animals belonging to and in the custody of persons arrested by this Department, after normal business hours, shall be taken into the animal shelter by the arresting officer and placed in the quarters provided for them (if transportation is impractical, the Humane Society should be notified and will respond to take custody of the animal).

A note containing a brief explanation of the circumstances requiring the animal to be placed at the shelter shall be attached to the cage. This note shall contain the owner's name and the DR number of the incident report.

During the booking process, the animal shall be listed on the prisoner's property slip.

400.4 ALARM RESPONSE / FALSE ALARMS

400.4.1 DEFINITIONS

False alarm - any alarm activated for reasons not of an emergency nature or due to the malfunction of any segment of the alarm system and which may result in a response by the police department where an emergency situation does not exist. "False alarm" also means the use of an alarm for purposes other than that for which it was installed.

False Alarm Notification Card (FANC) - a police department form documenting the response to an alarm activation; the form documents the address, name of business, date and time, officer name, and disposition of the call.

CARD - the disposition code to be used by officers denoting a false / unfounded alarm activation and that a FANC was completed.

Gardena Police Department

Gardena Procedures Manual

Patrol Function Procedures

400.4.2 PROCEDURE

- (a) When assigned a service call involving an alarm activation, responding officers shall properly investigate each alarm call. If the alarm activation is determined to be false or unfounded, the primary officer shall cause a False Alarm Activation Card (FANC) to be completed and a copy to be left in a conspicuous location so the owner will know there was a police response. Upon clearing the call, the officer shall use the disposition "CARD" with dispatch to indicate the call was false or unfounded and that a FANC was completed. Officers shall submit the original to the watch commander at the end of shift.
- (b) Watch commanders shall forward the original copy of the False Alarm Notification Card to the appropriate personnel maintaining the alarm database.
- (c) FANC copies will be maintained annually and used to compile a master list of alarm activations. New addresses and repeat activations will be tracked and documented in this master list. Notices will be mailed to premises where alarms have been falsely activated three or more times. Invoices will be mailed to repeat offenders with four or more activations.
- (d) The Police Department will attempt to collect all fees related to the alarm permit application and any fines related to excessive alarm activations. Any fees or fines not submitted by alarm holders in a timely or required manner will be forwarded to the City's collection service.

400.4.3 ADDRESS NOTIFICATION

An officer handling an alarm incident without a specific address shall attempt to locate the source of the alarm. If the source of the alarm is located and determined to be false, the officer will advise Communications of the exact address of the alarm. Communications will enter the exact address into the computer system.

400.4.4 ALARM NOTIFICATION CARDS

After checking the location of an alarm and determining that the alarm was false, the officer shall leave an Alarm Notification Card in a conspicuous place. Any unusual conditions, such as unsecured doors or windows, should be noted on the card.

400.4.5 CHRONIC ALARMS

Personnel who become aware of an alarm system, that is known to chronically issue false alarms, shall notify Communications. The information provided should include the name and location of the firm or residence using the alarm, the name of the company maintaining the alarm, and the nature of the problem.

When advised of a chronic alarm, Communications may direct their personnel or field personnel to attempt contact with a responsible party for the location at which the alarm is activated. If contact is made, the problem should be explained to the responsible party and corrective action requested.

If the location of a chronic alarm is a City of Gardena building, the officer shall complete a memorandum and forward it to a supervisor. The supervisor shall make a copy of the

Gardena Police Department

memorandum and forward one copy to the affected department and the other copy to the Chief's Office.

400.5 BUILDING SECURITY BOARD UP PROCEDURE

Whenever an officer responds to an incident where a building cannot be secured, the officer will attempt to contact a person responsible for the location. If a responsible party cannot be located, and the only means of securing the building is by having an officer stand by, the building may be boarded up pursuant to City ordinance.

In order to have a building "boarded up," the officer will obtain a supervisor's approval and notify Communications. Communications will contact the appropriate company and have them respond to the location. The officer may leave the location once it has been secured.

400.6 FRONT DESK OFFICER

The front desk officer shall assist and direct all persons entering the Police Facility through the front entrance. The front desk officer will be responsible for ascertaining the particular needs of an individual and ensuring that the person is provided with the appropriate assistance.

The front desk officer will remain cognizant of visitor needs and address those needs in a timely and professional manner. The Front desk officer is responsible for directing visitors to the appropriate sources of services and information. In addition to providing referral services within the Department (i.e., investigative services, fingerprint service, reports/Records information), the front desk officer should direct visitors to the resources of other agencies (i.e., City Departments, other governmental agencies, social services agencies, etc.) when suitable. If conditions are such that the front desk officer cannot provide the appropriate level of Service, the Watch Sergeant should be advised and appropriate action taken.

400.6.1 FRONT DESK TELEPHONE COMMUNICATIONS

During normal business hours, the front desk officer usually will answer in-coming telephone lines. Outside business hours, the front desk officer shall have the primary responsibility of answering the Department's designated information lines.

The front desk officer shall limit self-initiated telephone calls to those that are essential to the officer's assigned duties.

400.6.2 POLICE REPORTS

The front desk officer will request a field unit to take an incident report under the following circumstances:

- (a) When as a matter of convenience to the reporting party, who would be required to return to the location of occurrence and the facts of the matter, do not necessitate an on-scene investigation.
- (b) Counter or telephonic reports should be limited to reports that do not have suspect information, do not require an on-scene investigation, or do not require an immediate follow-up investigation.

Gardena Police Department

400.6.3 POLICE FACILITY VISITORS

The front desk officer or other appropriate person shall determine the needs of each visitor. If the visitor has legitimate business with the Department, the visitor will be directed to the appropriate individual or bureau. All visitors to the police building are required to check in at the front desk.

The front desk officer shall contact the appropriate employee prior to permitting the visitor to access the facility. The visitor will only be admitted to the facility when escorted by a Department employee. The Watch Commander or Supervisor may authorize exceptions.

When it is apparent that a visitor does not intend to conduct legitimate business within the Police Facility, or the visitor poses a potential threat to Police Operations and/or personnel, the front desk officer will take immediate and appropriate action to remedy the situation.

The front desk officer shall immediately notify the supervisor whenever a visitor poses a threat to police operations and/or personnel; there is a disturbance at the front desk, or a disruption of City business at the front desk.

400.6.4 FRONT DESK / BUILDING SECURITY

The front desk officer is responsible for ensuring that adequate security is maintained at the front entrance of the police facility.

The access door adjacent to the front desk counter shall remain secured, and visitors shall not be permitted beyond the front desk lobby until such time that the front desk officer has determined a legitimate need for access. Only those persons requesting or requiring services provided by this agency shall be permitted to remain within the police facility.

400.6.5 DELIVERIES AT THE FRONT DESK

The front desk officer is responsible for routing deliveries received at the front desk both during and after business hours.

During business hours, all mail and newspapers received at the front desk shall be forwarded without unnecessary delay to the Office of the Chief of Police.

400.7 COMMUNICATIONS

400.7.1 VOICE RADIO COMMUNICATIONS GENERAL

Personnel shall utilize radio equipment for the purpose for which it was designed. Personnel are responsible for the safekeeping and operation of the radio equipment under their control. Personnel shall be cognizant of the frequency to which they are assigned and the status of the radio transmitter (i.e., "open microphone") at all times.

400.7.2 VOICE RADIO COMMUNICATIONS AUTHORIZED LANGUAGE

400.10 ARREST/CUSTODIAL CASES MEDICAL CARE

Whenever possible, persons who have committed criminal acts and thereafter require emergency treatment should be processed and prosecuted by criminal complaint rather than by a field arrest.

Should an arrest be affected, the field officer shall have the arrestee transported to an authorized medical facility for treatment and diagnosis before the arrestee is booked in the Jail.

Felony arrestees requiring admittance to the hospital for prolonged treatment should be transported to the Jail Ward of the Los Angeles County Medical Center. The Los Angeles County Medical Center Jail Ward will not accept misdemeanor arrestees for medical treatment. The City is solely responsible for the medical treatment of all misdemeanor arrestees.

400.10.1 ADMITTANCE TO LOCAL HOSPITAL

When a prisoner requires immediate admittance to a local hospital for other than emergency room treatment, the arresting officer shall notify the on-duty Watch Commander.

400.10.2 MEDICAL TREATMENT REPORTING REQUIREMENT

When a prisoner is transported to a local hospital, the assigned officer shall include the circumstances and medical treatment in a police report.

400.10.3 CUSTODIAL CASES FINANCIAL RESPONSIBILITY

Medical costs associated with treatment received by an inmate resulting from incidents not proximately caused by the act of the Gardena Police Department will be incurred by the inmate.

Ambulance service for all custody cases and non-custodial cases will be covered pursuant to current contractual agreement with an approved ambulance company. This includes transportation to L.A. County Medical Center Jail Ward.

Professional Ambulance will cover ambulance service for all custody cases and non-custodial cases on a flat-rate contract basis. This includes transportation to L. A. County Medical Center Jail Ward.

Gardena Police Department

Gardena Procedures Manual

Patrol Function Procedures

400.10.4 ACCEPTANCE OF ARRESTEES FROM OTHER AGENCIES FINANCIAL RESPONSIBILITY FOR MEDICAL COSTS

Officers and custodial personnel should exercise caution when accepting an arrestee from an outside agency whose medical condition is questionable. Once the arrestee is booked into this Department's Jail, any emergency room fee is incurred by the City of Gardena. (This includes arrestees that are brought to the Gardena City Jail by outside agencies - C.H.P., etc.)

400.11 ADMONITION OF RIGHTS PRIOR TO INTERVIEW

Prior to interviewing/interrogating a suspect(s) in custody about possible participation in a criminal offense, the officer shall advise the suspect(s) of their Miranda rights.

400.12 MISDEMEANOR ARREST(S) ADVISEMENT

In the case of misdemeanor arrests, the arresting officer is responsible for advising arrestees of their constitutional rights. If an intelligent waiver is obtained (i.e., the arrestee understands the admonition), an interview shall be conducted and a statement obtained.

400.13 FELONY ARREST(S) ADVISEMENT

Generally, persons arrested for felony offenses should not be advised of their constitutional rights or interrogated at the time of their arrest by field personnel. The advisement and interrogation is normally the responsibility of Investigative Services personnel assigned to the case.

However, if unusual circumstances exist, and an immediate advisement, waiver, and interrogation would enhance the investigation, or the arrestee wishes to talk to the officer, a field officer may make the advisement and obtain a statement.

When a felony suspect is to be released on bail prior to being interviewed by the appropriate detective bureau personnel (and the release is occurring during hours when investigative personnel are not on duty), a field officer should admonish the suspect and obtain a statement.

In the case of serious crimes, Detective Bureau personnel should interview the suspect unless exigent circumstances are present (e.g., the suspect is seriously wounded).

400.14 JUVENILE ARREST(S) ADVISEMENT

In compliance with §625(a) of the Welfare and Institutions Code, all juveniles arrested by this Department will be advised of their constitutional rights at the time of arrest.

Refer to the Juvenile Section of this manual for additional information/procedures.

400.15 UNSOLICITED STATEMENTS

All personnel shall document spontaneous or unsolicited statements that are pertinent to the case.

Patrol Function Procedures

400.16 ADMONISHMENT OF RIGHTS - INCLUSION IN THE REPORT

In the incident report, the officer shall include all pertinent facts regarding the advisement of the suspect's constitutional rights, the suspect's refusal or waiver of those rights, and any information obtained in the subsequent interview.

400.17 PATROL SCHEDULING

400.17.1 DEFINITIONS

InTime ISE Work Schedule – ISE daily scheduler software is a 3-tier Enterprise Resource Deployment Application.

ISE – Employee Self-Service Portal (ESS) - Employees can view their own schedule; view their personal profile, ability to submit Leave requests, Activity overtime requests, and Sign-Up for overtime assignments.

Leave – Administrative leave, comp time, holiday, vacation (incidental, primary and non-primary) and any sick leave.

Overtime Distribution - The ISE system utilizes a database with filters that calculates voluntary overtime and distributes it in an equitable manner. Some of the filters include, but not limited to "Turn Organizer," "Precedence," and "Entered" time.

Swap – Patrol assignments equally exchanged between two employees' regular shifts.

Voluntary Overtime - Not specific to a specialist position or collateral duty.

400.17.2 PROCEDURE

- (a) With the assistance of patrol lieutenants and field supervisors, the scheduling lieutenant manages the overall patrol schedule and ensures the correct amount of resources are distributed across the patrol shifts. In addition, these are some of the responsibilities of the scheduling lieutenant:
 - 1. Schedule modifications/adjustments
 - 2. Allocation of personnel to each shift
 - 3. Primary/Non-primary vacation
 - 4. Scheduling department training
 - 5. Overall oversight of Patrol overtime
- (b) Each patrol lieutenant and patrol sergeant specifically manages the personnel assigned to their side of the shift and is generally responsible for the following areas:
 - (a) Ensuring shifts are properly staffed
 - (b) Monitoring overtime/sick time usage
 - (c) Incidental time off requests (see below)
 - (d) Daily input of time usage by personnel

Gardena Police Department

Gardena Procedures Manual

Patrol Function Procedures

- (e) General oversight of “District” projects/missions requiring overtime
- (c) To establish consistency across every shift in the methods used to manage patrol personnel deployment, overtime, and time off requests. The following guidelines shall be followed:
 - 1. Properly staffing our patrol shifts is one of the highest, if not the highest priority, for our department. Training, time off requests, checkpoints, taskforces, etc, are secondary to the adequate deployment of our patrol resources.
 - 2. Any changes made to the schedule are automatically stored in the ISE history database by date, log time, user and operation.
 - 3. If there is an occasion that you modify a shift you are not directly responsible for, you shall notify the lieutenant/sergeant responsible for that shift as soon as practical.
 - 4. Finally, no major scheduling changes without the scheduling lieutenant’s approval or the approval of the shift lieutenant.
- (d) Time off requests
 - (a) Only one primary vacation request will be approved for a specific time frame.
 - (b) Generally, only one officer is allowed off on incidental time per shift. There may be occasions where primary vacations, training and other personnel issues will prevent any personnel from taking time off during a particular shift(s).
 - (c) An exception to the one officer rule may exist from time to time when shift coverage is at its maximum; due to no scheduled primary vacations, IOD status, training, or other excused absences. In these situations the shift sergeant may, at his/her discretion, allow an additional officer incidental time when requests exceed the one officer per shift guideline and is requested within ONE WEEK of the affected date of request.
 - (d) If a shift is below minimum, generally no incidental time will be granted. There may be extenuating circumstances where the department has caused the below minimum staffing i.e. department training (Perishable Skills, SWAT, etc.), instructor adjustments for in-house training, etc. In these cases, the overseeing lieutenant will make the decision as to whether or not an officer will be allowed a day off.
 - (e) Shift trades or Swap for time off are approved by the sergeants and must be entered in the schedule in advance of the shift trade date(s).
 - (f) There are circumstances such as family leave, IOD or long term illnesses that can cause deviations from the above guidelines. The scheduling lieutenant will handle these situations on a case-by-case basis.
- (e) Overtime - The organization makes every effort to deploy personnel to each patrol shift in a manner that exceeds minimum staffing requirements. As a result of this effort, weekend night shift is allocated more personnel to mitigate risks associated with that deployment timeframe. There may be occasions when resources are depleted and a need for overtime exists. When the need for personnel arises or when there is an

Gardena Police Department

Gardena Procedures Manual

Patrol Function Procedures

assignment requiring overtime to be meted out, the following guidelines will be used to distribute overtime to personnel:

- (a) Volunteer overtime will be distributed on a rotational basis by posting the availability of assignments in the ISE/ESS system. Once the overtime is posted in ESS, notifications will be sent to the concerned employees email and SMS via ISE.
- (b) If an employee is available to work overtime he/she should sign-up using the ESS Portal. Once the employee has signed-up, the supervisor will fill the assignment using the ISE work schedule. The "Find" process will display the employees who have agreed to work the assignment in the order dictated by list organizer calculations. The employee that meets the criteria will be first on the list. The supervisor will click "Fill" and the selected employee will be given the assignment. ISE will then notify the selected employee via email and SMS they have been designated for the overtime.
- (c) An employee who has been Filled for an overtime assignment will be shown as having a Turn on a virtual roster within the ISE database. If two or more employees are competing for the same overtime position, the employee who has not recently had a turn will be at the top of the find list.
- (d) Four (4) hours of overtime or less will be posted in the same manner as above with one exception. The scheduling sergeant/lieutenant will not click "Fill" and the concerned employee will not be calculated as having a Turn.
- (e) Specific overtime that requires expertise in a specialist assignment or collateral duty assignments are not subject to the posting of overtime in ISE.
- (f) Employees who sign up for an assignment are expected to be available should they be selected. If an employee is selected and refuses the overtime without an excusable reason they will be considered as having a Turn.
- (g) An employee calling in sick, six (6) days or more, within a four-month deployment will be prohibited from working overtime. Any deviations from this guideline should be approved by the scheduling lieutenant.
- (h) Any pattern of sick leave abuse will be subject to discipline in accordance with City of Gardena Personnel Rules and Regulations, Section 10.5.
- (i) Employees who sign up for overtime and fail to make themselves available when selected, may face additional restrictions, up to and including denying them any overtime and/or disciplinary action.
- (j) A separate overtime posting/sign-up method utilizing ISE will be used for special events (I.e., DUI Checkpoints, Parades and Special Events, etc.). The method allows employees wishing to sign-up for those specific special events exclusively.
- (k) Except in a case of department needs determined by management, an employee on leave shall not sign up or be assigned overtime if their regularly scheduled work hours would conflict with the overtime position.

Gardena Police Department

Gardena Procedures Manual

Patrol Function Procedures

- (l) Regular work hours and leave hours (time-off) are considered to be the same for the purpose of assigning overtime. Therefore, the same condition applies while on any type of leave. If the employee would not be eligible for overtime during their scheduled work hours, then they will not be eligible for overtime while on leave.
- (m) An employee, who swaps their regularly assigned shift with another, is prohibited from working an overtime detail on the swapped day.
- (n) All supervising employees issuing overtime are ultimately responsible for adhering to the guidelines for posting within ISE and ESS. The ISE/ESS database provides transparency when overtime has been assigned and distributed to our employees.

400.18 ELECTRONIC STAKEOUT TRACKER

In order to more effectively address various types of property and violent crime, the Gardena Police Department will lawfully deploy GPS tracking devices in an attempt to apprehend those that commit crimes in the community. The Gardena Police Department's Electronic Stakeout (ESO) Tracker Program is an innovative method of crime fighting that combines technology with community participation and partnership. The Gardena PD's ESO Tracker Program is intended for use in businesses, residences, or any other venue where there exists a concern for theft of currency or property.

This procedure regulates the maintenance and practices of the Gardena PD's ESO Tracker Program and was established to ensure the professional and legal administration of the Gardena PD's ESO Tracker Program. This procedure was also established to address a multitude of concerns including the ability to ensure the Gardena PD's ESO Tracker Program and its community partnerships are entirely voluntary, that there is no special relationship created between the Gardena PD and the community partner, and that there are no guarantees, expressed or implied, for the prevention of crime or the disposition of a criminal investigation. Finally, this procedure is intended to address the liability of the Gardena PD's ESO Tracker Program to the extent that Gardena PD is held harmless against injury or loss sustained during the partnership and the Gardena PD's ESO Tracker Program deployment.

This procedure applies to all personnel assigned control, care, and deployment of the ESO Global Positioning System (GPS) trackers, bait containers and cash tracking packs.

400.18.1 DEFINITIONS

Electronic Stakeout (ESO) tracker - a GPS enabled tracking system that aids in the recovery of stolen money/property and apprehension of the involved suspects. The tracker consists of a circuit board housing a battery, Cellular SIM card, GPS receiver, and a Radio Frequency (RF) transponder. The Gardena PD may deploy various model types of this kind of GPD tracking device. Each model is designed to enable police to track stolen property.

Gardena PD may deploy an ESO Tracker concealed in a stack of cancelled currency. The currency is bound into a permanent package which has a cut out for the concealment of the ESO tracker.

Gardena Police Department

Gardena Procedures Manual

Patrol Function Procedures

The case agent only needs to add a few bait bills on the top and bottom of the currency pack using double-sided tape. This deployment is commonly used to conceal the tracker in a cash drawer. In addition to using the double-sided tape, the case agent may also use packing tape, rubber bands, and/or currency wrappers to help conceal the GPS device in the currency pack.

ESO Handheld Beacon - a handheld device which operates on batteries and uses four extendable antennas to ascertain the precise location of the ESO Tracker. The handheld device tracks the Radio Frequency (RF) transponder on the ESO Tracker. This device allows the user to pinpoint the exact residence, apartment, or vehicle in which the ESO Tracker is located. The Handheld Beacon should be stored in a location that is readily accessible to field law enforcement personnel.

Community Partners - members of the Gardena community who request that ESO equipment be deployed in their business and/or on their property. Community Partners may also be those who donate “bait” property to the program.

Hold harmless agreement - an agreement or contract in which the community partner agrees to hold the Gardena Police Department free from the responsibility for any liability or damage that might arise out of the use of the GPS tracking devices.

400.18.2 BACKGROUND

Based on research and test applications, the ESO Tracker manufactured by 3SI Security Systems was selected for use in the City of Gardena to aid in the prevention and investigation of property related and violent crimes. The ESO tracker is a GPS based tracking system designed to be concealed in property likely to be stolen. It can also be used to monitor the travels of property or informants with their expressed approval. Once the ESO tracker equipped property has been stolen, investigating officers can track the signal to locate the property and the suspect who stole it. The ESO tracker program will be offered to Gardena businesses and residents or to businesses and residents located outside the city if those businesses or residents could assist in the solvability of crimes connected to Gardena; however, the actual deployment of the system in a business or residence is contingent on the availability of the equipment, willingness to sign the hold harmless agreement, and material public safety law enforcement need.

The ESO tracker program will primarily be deployed in one of two methods:

- (a) concealed in a currency Cash Tracking Pack (CTP) that is placed on a magnetic activation plate located in a cash drawer, register, safe or location likely to be targeted by a thief, or
- (b) using the tracker as a stand-alone monitoring device, which could be inserted into bait property such as: laptops, vehicles, bicycles, heavy equipment, etc.

The Gardena Police Department has purchased several devices from 3SI Security Systems. For technical device questions or support during any activation, 3SI Security Systems can be contacted directly 24 hours/7 days a week at 888-374-8722.

400.18.3 RESPONSIBILITIES

The Detective Bureau Commander or his or her designee should maintain the signed hold harmless letters for community partners for at least three years from the end of any given operation/partnership.

The Detective Bureau Commander or his or her designee will be responsible for the logistical accounting of all ESO tracker devices. They should also ensure all case agents tasked with deploying the ESO tracker devices are properly trained on the professional and legal use of the device, the reporting requirements, and replacement of the devices.

Case agents tasked with deployment of a ESO tracker device should have reviewed all applicable training on the device and the Gardena PD's ESO Tracker Program, assign the tracker a "file name and location," log that information into the 3SI database prior to deployment, report any defective or missing devices to their supervisor immediately upon notification, and follow procedures detailed in this SOP.

400.18.4 GENERAL PROCEDURES

- (a) All station personnel involved in the Gardena PD's ESO Tracking Program should be trained with its use and care. 3SI Security Systems provides an instructional guide which each officer should become familiar with. The guide and training log should be attached this procedure and a copy forwarded to the training unit for inclusion in the officers' training record. The Detective Bureau Commander will be responsible for coordinating all training as it relates the ESO Tracking Program.
- (b) Use of the ESO tracking device must be authorized by a supervisor. Only the Detective Bureau Commander and his/her designee should have "Administrator Rights" to effect changes in the 3SI database.
- (c) The ESO tracker devices and related equipment should be maintained and periodically inspected in order to ensure all devices are functioning at optimal charging levels. If not deployed in the field, these devices should be stored with the Detective Bureau Commander or his/her designee.
- (d) The tracker devices should be inspected prior to deployment and should be charged to at least 4.0 volts. The rate of the GPS ping should be set to six seconds unless the deployment calls for an increased update rate.
- (e) Prior to deployment, the assigned Case Agent should ensure each tracker is accurately listed and the location logged on the 3SI website to provide for location accountability during a given deployment. If the device is moved to a different location, the new location must be updated through the 3SI database.
- (f) A member of the Gardena PD's ESO tracking team should train community partners (and their employees as necessary) on the proper use of Gardena PD's ESO Tracking Program devices. The Detective Bureau Commander is responsible for coordinating this effort.
- (g) ESO tracker program training for community partners should minimally include the following subject matter: ESO tracker program capabilities and limitations, requirements for the passive deployment of ESO trackers, safety during a theft

Patrol Function Procedures

incident, being a good witness, the use of Crime Prevention Through Environmental Design principles (CPTED), and restrictions on uses and abuses of deployed equipment.

- (h) The ESO tracker program Hold Harmless Agreement should be signed by the community partner prior to any deployment at the business or residence. The waivers should be kept on file with the Detective Bureau Commander or his/her designee for a period of three years from the date the deployment is terminated.
- (i) Where the ESO tracker is deployed in a community partner, every effort should be made to strategically deploy devices in locations where they will be taken by the thief without the active participation of the community partner.
- (j) Where the ESO tracker is deployed in an Electronic Stakeout (ESO), the Case Agent should ensure the ESO Tracker is labeled (via the 3SI website) according to the bait item in which it is installed as well as its deployed location.
- (k) In the event of an ESO tracker activation, the device will send an audible alert to the South Bay Regional Communication Center (RCC) via the 3SI website. Dispatch should utilize a code word to indicate a tracker activation is taking place. This will alert responding officers that the robbery or theft involves a GPS enabled tracking device. Care should be given to not use words such as "tracker" or "GPS" over the air. Dispatch will be responsible for ensuring they are logged into the 3SI tracking system and provide real time direction of travel, speeds, and signal strength of the tracking device as updated on the 3SI website. Exceptions to this guideline include when the ESO Tracker is being utilized on a specialized investigation. Dispatch shall immediately confirm the type of crime involved, suspect description, suspect vehicle description, and from where the crime originated. This information shall be conveyed to the Watch Commander.
- (l) The Watch Commander or his/her designee should continuously evaluate the incident and request additional resources as needed. Upon learning of an activation, the Watch Commander shall be responsible for confirming what type of crime is involved in the incident, suspect description, suspect vehicle description, and from where the crime originated. This information can be obtained from dispatch.
- (m) If the ESO tracker moves outside the jurisdiction of Gardena PD, the Watch Commander will continually evaluate the need for alternative resources to continue the investigation.
- (n) If needed, the Watch Commander or his/her designee (CSU Supervisor/Detective Bureau Supervisor/SEU Supervisor) should also be responsible for deploying the ESO Handheld Beacon in the event a more specific location of the device inside a residence or apartment is necessary.
- (o) The use of this technology and its success is dependent on keeping any given use or deployment completely confidential during the given operation or deployment. The location of the device should only be shared with Department personnel and those community partners that may handle the "bait" property. However, the program availability may be publicized with those that may have a need to utilize such a program.

Patrol Function Procedures

- (p) The Detective Bureau Commander or his/her designee should monitor monthly all of the active tracking devices via the 3SI website to ensure none of the active devices batteries fall low. If a low battery is found, the Case Agent will be notified and the device's battery should be recharged. Further, the "Administrators" on the 3SI website can automatically be notified, by text message, if any device's battery should become critically low.

400.18.5 SPECIFIC DEPLOYMENT METHODS

The following is a list of guidelines that can be utilized when deploying the GPS tracking devices to address different crime trends:

- (a) Vehicle Burglaries
 - 1. The name of the device should be listed as the vehicle description as opposed to the location in which the device is deployed.
 - 2. Dispatch should be informed of the make, model, and location of the vehicle used as bait so that a CAD call is generated. The CAD call should contain the date of deployment and the name of the employee that deployed the vehicle.
 - 3. The alert message should contain a detailed description of the bait property.
 - 4. If a vehicle is to be deployed on private property, permission shall first be obtained from the property owner.
 - 5. Vehicles shall be washed periodically.
- (b) Convenience Stores
 - 1. The name of the device should be the store location.
 - 2. The alert message should include the store contact information.
 - 3. A signed "Hold Harmless Agreement" shall be obtained from store management/owner.
- (c) Bicycles
 - 1. Bicycles should be locked using a cable lock or located in a secure area.
 - 2. The name of the device should be the location of the deployment.
 - 3. The alert message should contain a detailed description of the bicycle.
- (d) Other Deployments
 - 1. The name of the device should be the location of the deployment.
 - 2. The alert message should contain a detailed description of the property and tactical strategies to affect an arrest.
 - 3. "Bait" items should be deployed in such a manner to address crime trends in the community.

Crime And Disaster Scene Integrity

403.1 PURPOSE AND SCOPE

The following procedure is to establish guidelines for Fire and Arson investigations.

403.2 FIRE/ARSON INVESTIGATION

Personnel who observe a fire shall immediately notify the fire department and take appropriate action to prevent injury or death to any person. Officers shall not enter structures displaying obvious involvement in flame and/or smoke without proper equipment. In case of life endangerment, officers shall evaluate the potential for a successful rescue against the potential of becoming a victim in need of rescue.

403.3 INVESTIGATION RESPONSIBILITY

When investigating a fire of a suspicious nature, the officer assigned should gather the following information and include it in the crime report:

- (a) Time of the alarm or observation
- (b) A description of the location and extent of the fire damage
- (c) Approximate loss due to the fire
- (d) Victim and Witness statements
- (e) Notification of owner and/or victim
- (f) Fire Department incident number
- (g) Notification of Arson investigators

Arson investigators will be assigned to conduct a follow-up investigation and attempt to determine the cause and origin of the fire.

403.4 ARRESTS MADE AT FIRE INCIDENTS

When an arrest is made at the scene of a fire incident, the Arson investigators should be notified to interview the suspect as soon as practical.

Cite and Release Procedures

410.1 PURPOSE AND SCOPE

Non-Detained Minors can be cited into several different courts/program.

This procedure will provide the officer with the proper course of action to take when issuing a citation to a non-detained minor.

This procedure will also provide the officer the guidelines on the processing of an individual over the age of 18 who is in possession of less than one ounce of marijuana.

410.2 ISSUING NOTICE TO APPEAR TO JUVENILES

The officer will determine whether the minor will be cited to one of the following courts or program:

- (a) Inglewood Juvenile Court: 110 E. Regent Street, Inglewood, CA 90301
- (b) Gardena Juvenile Justice Intervention Program: 16206 S. Western Avenue, Suite E, Gardena, CA 90247
- (c) Los Angeles County Probation-Citation Diversion Unit: 6640 Van Nuys Blvd, Suite 200, Van Nuys, CA 91405
- (d) Torrance Traffic Court: 825 Maple Avenue, Torrance, CA 90501

410.3 INGLEWOOD JUVENILE COURT

All non-detained felonies and some misdemeanors will be cited to Inglewood Juvenile Court with a court date. A PARENT OR GUARDIAN MUST BE ISSUED A CITATION. The appearance date will be sixty (60) calendar days after the date on which the Notice to Appear was issued. If that date isn't a court day, use the next court day.

The following Vehicle Code section violations generally will also be filed with the Inglewood District Attorney's Office, and they should also have a parent citation and a court date: 31, 4463, 2800.1, 2800.2, 2800.3, 2800.4, 10801, 10802, 10851, 10852, 10853, 13004, 20001, 20002, 23103, 23104, 23109, 23110, 23123, 23136, 23140, 23153, 23221, 23222 and 23223.

410.4 GARDENA JUVENILE JUSTICE INTERVENTION PROGRAM

This program is designed for qualifying minors eleven (11) through seventeen (17) years-of-age who reside or attend school in Gardena.

For all Gardena Municipal Codes and some misdemeanor crimes (refer to crimes listed under the Los Angeles County Probation Department section of this procedure), the minor will be cited to the Gardena Juvenile Justice Program (GJJIP) without a parent citation or a court date. A representative of the GJJIP will contact the minor at a later time. The GJJIP will ensure compliance with the intervention program, or they will refer the matter back to the Gardena Police department's Juvenile Bureau for filing purposes.

Cite and Release Procedures

410.5 LOS ANGELES COUNTY PROBATION-CITATION DIVERSION UNIT

If the minor doesn't live or attend school in the City of Gardena, they will be cited to the Los Angeles County Probation-Citation Diversion Unit. These citations are issued to the minor without a parent citation or a court date. A representative of the probation department will contact the minor at a later time for follow-up. Probation will decide whether to dismiss the citation, counsel the minor, place the minor on diversion, or whether to refer the matter to the Los Angeles County District Attorney's Office for filing.

The following is a list of violations which can be cited to the Los Angeles County Probation Department using the regular citation form:

- (a) Penal Code
 - 303 (a), 308 (b), 330, 365 (i), 369, 374.3, 374.4, 402, 415.1, 484, 485, 490.1, 502 (c) (6) (7) or (8), 555, 555.2, 594 (a) (1), 594.1, 602 (m), 602.6, 640, 640 (a), 647 (f) and 647 (h)

410.6 TORRANCE TRAFFIC COURT

All traffic citations for traffic infractions for minors shall be cited to adult traffic court. These citations will be processed and handled in the same manner as an adult traffic ticket. A court date will be included on the citation, and a parent doesn't need to be cited.

410.7 STATUTE OF LIMITATIONS

There is a statutory limit associated with violations. If a minor referred to a local program doesn't complete the referral as required, the matter should be sent to probation as soon as possible. There is a one (1) year window from the violation date for handling these matters.

410.8 MARIJUANA FIELD RELEASE PROCEDURE

When a person eighteen years of age or over is arrested for possession of less than 28.5 grams of marijuana [§11357 (b) H & S], the officer shall release the person in the field unless:

411.1 PURPOSE AND SCOPE

The purpose of this procedure is to provide guidelines for the enforcement of detained Foreign Nationals, Foreign Nationals involved in traffic collisions, and Foreign Nationals who do not claim immunity.

411.2 ENFORCEMENT PROCEDURES

The following procedures provide a guideline for handling enforcement of foreign nationals:

411.2.1 CITABLE OFFENSES

An enforcement document shall be issued at the scene for all violations warranting such action, regardless of the violator's immunity status. The issuance of a citation is not considered an arrest or detention under current Department of State guidelines. Whenever the equivalent of a notice to appear is issued to an immunity claimant, the following additional procedures shall be followed by the arresting officer

- (a) Identification documents are to be requested of the claimant
- (b) The title and country represented by the claimant are to be recorded on the back of the officer's copy of the Notice to Appear for later reference. Do not include on the face of the notice to appear
- (c) The claimant shall be requested to sign the notice to appear. If the claimant refuses, the identity and immunity status of the individual shall be conclusively established
- (d) Verified diplomatic agents and consular officers, including staff and family members from countries with which the U.S. has special agreements, are not required to sign the Notice to Appear. The word "Refused" shall be entered in the signature box, and the violator shall be released
- (e) Verified consular staff members, excluding those from countries with which the U.S. has special agreements, are generally obligated to sign the Notice to Appear, but a signature shall not be required if their immunity status is uncertain
- (f) All other claimants are subject to the provisions of Vehicle Code § 40302(b) and policy and procedures outlined in this chapter
- (g) The violator shall be provided with the appropriate copy of the notice to appear

411.2.2 PARKING VIOLATIONS

Consular immunity does not prohibit citing and/or impounding consular vehicles which constitute a traffic hazard or which are in clear violation of local codes. However, as a matter of courtesy, officers should make a reasonable attempt to warn the concerned driver or Consular Officer of the pending action, and allow the vehicle to be moved prior to taking any action.

Foreign Diplomatic and Consular Representatives

411.3 TRAFFIC COLLISIONS

Persons involved in traffic collisions who possess a Department of State OFM Diplomatic Driver License, issued by the DMVO, shall have "D" coded in the license "class" box of the Traffic Collision Report. The actual driver license class (e.g., 1, 2, 3, or A, B, C, M) shall be entered in the miscellaneous box on page two of the traffic report. If subsequent prosecution of the claimant is anticipated, the claimant's title, country, and type of identification presented should be recorded for future reference. Issuance of a citation to, or arrest of, an immunity claimant at the accident scene should be handled in accordance with the procedures specified in Policy Manual § 422.5 of this chapter.

411.3.1 VEHICLES

Vehicles, which are owned by subjects with full immunity, may not be searched, stored, or impounded without the owner's permission. (Such permission may be assumed if the vehicle has been stolen.) These vehicles may, however, be towed the necessary distance to remove them from obstructing traffic or creating any other hazard.

411.3.2 REPORTS

A photocopy of each traffic collision report involving an identified diplomat and/or immunity claimant shall be forwarded to the office of the Chief of Police within 48 hours whether or not the claim is verified. The words "Immunity Claim" shall be marked on the photocopy, together with a notation of the claimant's title, country, and type of identification presented (if applicable). In addition to the report, a follow-up cover memorandum should be submitted if the violation was flagrant, if the claimant was uncooperative, or if there were any other unusual aspects of the enforcement contact that should be reported to the Department of State for further action. The Watch Commander/Supervisor apprised of the incident/accident shall also send a copy of all documents and reports submitted by the investigating officer along with any supervisor's notes, materials and/or logs to the Chief of Police's office within 48 hours of the incident. The Chief of Police's office will check to ensure that notification of Department of State and all necessary follow-up occur.

411.4 FOREIGN NATIONALS WHO DO NOT CLAIM IMMUNITY

These policies and procedures apply to foreign nationals who do not claim diplomatic or consular immunity.

Officers shall arrest foreign nationals only under the following circumstances:

- (a) There is a valid warrant issued for the person's arrest
- (b) There is probable cause to believe that the foreign national has violated a federal criminal law, a state law, or a local ordinance

Officers shall not arrest foreign nationals for undocumented presence. Federal courts have consistently held that undocumented presence is not a crime but a federal civil violation only enforceable by federal officers.

- Officers shall not stop or detain persons solely for determining immigration status.

Gardena Police Department

Gardena Procedures Manual

Foreign Diplomatic and Consular Representatives

- International treaty obligations provide for notification of foreign governments when foreign nationals are arrested or otherwise detained in the U.S.
- Whenever an officer arrests and incarcerates a foreign national or detains a foreign national for investigation for over two hours, the officer shall promptly advise the individual that he/she is entitled to have his/her government notified of the arrest or detention. (Penal Code § 834c). If the individual wants his/her government notified, the officer shall begin the notification process.

411.4.1 ARREST PROCEDURE

Whenever an officer physically arrests or detains an individual for criminal investigation and the officer reasonably believes the person to be a foreign national, the officer shall inquire to determine the person's citizenship. This procedure applies to detentions of more than two hours. An inquiry is not required if the individual is detained less than two hours for criminal investigation.

If the individual indicates that he/she is other than a U.S. citizen, the officer shall advise the individual that he/she has a right to have the nearest appropriate embassy or consulate notified of the arrest/detention (Vienna Convention on Consular Relations, Art. 36, (1969)).

If the individual requests such notification, the officer shall contact the Watch Commander as soon as practical and request the appropriate embassy/consulate be notified. Officers shall provide the Watch Commander with the following information concerning the individual:

- (a) Country of citizenship
- (b) Full name of individual, including paternal and maternal surname, if used
- (c) Date of birth or age
- (d) Current residence
- (e) Time, date, place, location of incarceration/detention and the 24-hour telephone number of the place of detention if different from the Department itself

If the individual claims citizenship of one of the countries for which notification of the consulate/embassy is mandatory, officers shall provide the Watch Commander with the information above as soon as practicable, regardless of whether the individual desires that the embassy/consulate be notified. This procedure is critical because of treaty obligations with the particular countries. The list of countries and jurisdictions that require notification can be found on the U.S. Department of State website.

Notification of consular officials by facsimile is acceptable. A facsimile notification form and telephone number list of embassies or local consulates in the United States is found in the Watch Commanders Foreign Nationals notebook. A copy of the faxed notification shall be retained with the in-custody's records.

411.4.2 DOCUMENTATION

Officers shall document on the face page and in the narrative of the appropriate Arrest - Investigation Report the date and time the Watch Commander was notified of the foreign national's arrest/detention and his/her claimed nationality.

411.5 POLITICAL ASYLUM

If a person requesting political asylum approaches an officer, the safety of that person becomes the total responsibility of that officer. The officer shall:

- (a) Take the person into protective custody
- (b) Advise the Watch Commander or Station Sergeant
- (c) Transport the person to the station immediately

The officer shall not ask any questions regarding the request for asylum, including the person's country of origin or reason for requesting asylum. A supervisor shall be notified; however the officer shall not use the voice radio to contact the station due to the delicate political nature of the situation, and the number of citizens and media who monitor the voice radio frequency.

The Watch Commander or supervisor notified shall be responsible for contacting the Division Commander or the Chief of Police. Arrangements will be made to transfer the person to the United States immigration and Naturalization Service.

Portable Audio Recorders

425.1 PURPOSE AND SCOPE

The use of audio recorders will assist officers in accurately capturing contacts between members of the department and the public. This procedure will provide officers with guidelines on the use of the audio recorder.

425.2 PROCEDURES

- (a) All sworn officers will be issued a department approved portable audio recording device. Once issued, each officer is responsible for the appropriate care and maintenance of the device.
 - 1. Broken or malfunctioning recorders or accessories are to be reported to the immediate supervisor as soon as possible.
 - 2. The officer shall complete and submit the appropriate repair form or memorandum detailing the type of problem(s). The immediate supervisor will supply the officer with a replacement recorder.
 - 3. Spare portable audio recording devices will be maintained in the briefing room armory.
- (b) Sworn uniformed line personnel shall attempt to record all citizen contacts while conducting law enforcement duties. This includes victims, witnesses and suspects in criminal investigations or calls for service. The incidents include, but are not limited to, traffic stops, pedestrian stops, and assigned radio calls. Investigators conducting follow-up investigations outside the department shall follow the same rules as uniformed officers when obtaining victim, witness or suspect statements. Supervisors need not record incidents in which they are only observing or directing employees. However, if they become actively involved with the participants in the incident, they will follow the same rules as other sworn officers.
- (c) Whenever possible, the recorder should be started just prior to the citizen contact. The contact should be recorded in its entirety. Whenever a direct contact is interrupted, (officer returning to unit to issue a citation, run a records check, etc.) the recorder may be stopped and restarted upon return. This also applies to portions of incidents when officers confer during incidents to discuss tactics in handling the situation.
- (d) When contact is made with victims or witnesses and a rapport is established during lengthy investigations or reports, the recorder may be turned off. However, it is still important to record critical statements by victims or witnesses, such as suspect identifications or detailed descriptions should they occur after this rapport is established. Conversations with suspects should be recorded in their entirety. At the first sign of controversy or hostility, the recorder should be turned on and left on during the remainder of the contact.
- (e) Citizen contacts made during casual encounters need not be recorded. Casual encounters can include contacts made with business employees during lunch or

Gardena Police Department

Gardena Procedures Manual

Portable Audio Recorders

coffee breaks, friendly conversations with known citizens or local merchants, friendly conversations with non-police department City employees.

- (f) Whenever an officer believes a particular contact may lead to a citizen complaint, the officer shall bring the recording to the attention of the Watch Commander as soon as practical. Important recordings should contain a follow-up recording or statement by the officer. The statement may include the full names of the parties' recorded and specific circumstances (type of call, date and time, report number, description of surroundings, witnesses not revealed on the recording, etc.).
- (g) Officers shall not jeopardize officer safety in order to operate their recorders. Officers suddenly confronted with an unexpected event are expected to activate their recorders only as soon as safely possible. Unless it is unsafe or impractical to do so, or mechanical issues that impede the use of the device are present, officers shall make every reasonable effort to activate their audio recorder prior to making contact with an involved party.

425.3 PROHIBITED USE

- (a) The recorders are to be used for citizen contacts and not for personal matters or the recording of contact with supervisors or other members of the department unless conducting an assigned investigation or so directed by the Chief of Police. (632 and 633 of the California Penal Code)
- (b) If an employee accidentally records an unauthorized conversation with other Department employees, that officer shall notify the recorded person(s) and the on-duty watch commander, who will appropriately dispose of the recording.

Automated License Plate Readers (ALPRs)

428.1 PURPOSE AND SCOPE

The Automated License Plate Recognition (ALPR) System is a vehicle-mounted or fixed-point camera, software, and database system that is used to locate stolen or wanted vehicles.

Police Officers, Crime Analysts, Public Safety Dispatchers, Information Technology staff, and civilian personnel who complete user training, receive supervisory approval, and are approved by the Chief of Police to access ALPR equipment shall be authorized to use ALPR. Authorized use of ALPR shall be limited to:

- (a) Police Officers when on-duty responsibilities include operation and/or monitoring of ALPR;
- (b) Public Safety Dispatchers when on-duty responsibilities include validating ALPR data;
- (c) Sworn personnel and Crime Analysts when on-duty responsibilities necessitate querying of ALPR for criminal investigations or analysis; and
- (d) Information Technology staff responsible for purging ALPR data.

428.4 OFFICER RESPONSIBILITY

When a license plate hit is detected by ALPR, the officer shall visually confirm the license plate and verify the match through RCC prior to taking enforcement action. For report writing purposes, officers shall indicate the fact that their attention was originally drawn to the vehicle via the use of ALPR.

428.5 INFORMATION SHARING

The Department is party to an Inter-agency Agreement to share ALPR data with the Los Angeles County Sheriff's Department (LASD) and any other law enforcement agency participating in the agreement. Department ALPR data shall only be shared with the agency parties participating in the agreement and only accessible to the authorized users designated by those agencies. Vehicle Towing and Release

502.1 PURPOSE AND SCOPE

This procedure is a guideline to give details on what vehicles may be stored and impounded under the California Vehicle Code. This procedure also explains how stored or impounded vehicles are inventoried or subject to scientific examinations. After a vehicle has been stored or impounded, this procedure details the Records Bureau's responsibility to make notification(s) to whom and how they are made. And finally, this procedure details the proper steps to be taken when releasing a stored or impounded vehicle.

502.2 VEHICLE GENERAL PROVISIONS

All vehicles used in crimes, vehicles seized due to their evidentiary value, stolen or embezzled vehicles, those involved in hit and run incidents and/or violations of specific sections of the vehicle code, may be impounded under the appropriate Vehicle Code section(s).

502.2.1 RELEASE EXCEPTIONS

When an officer recovers a stolen vehicle or impounds a vehicle, it shall be available for release with the following exceptions:

- (a) There are holds placed in the Stolen Vehicle System (SVS) by outside agencies
- (b) There is physical evidence to recover
- (c) A hold has been placed on the vehicle by Investigative Services personnel
- (d) The vehicle has been used in a crime
- (e) Follow up by the Traffic Bureau is necessary

If a vehicle is held for one of the above circumstances, the word HOLD shall be written across the upper right portion of the report in 1" letters.

502.2.2 VEHICLE IMPOUNDS - OUTSIDE AGENCY

All stolen vehicles with holds placed by an outside agency or by this Department, shall be impounded and released only by the investigating agency or the Gardena investigator assigned to the case.

502.2.3 VEHICLE IMPOUNDS - STOLEN OR EMBEZZLED NOTIFICATION

It shall be the responsibility of the officer who recovered the vehicle to ensure that the following notification and cancellation procedures are accomplished:

- (a) Notify the owner by telephone and mail a notice to the owner informing them that their vehicle has been recovered and that it is/is not available for release. If it is not available the owner should be advised to contact the auto theft detail.
- (b) Update the stolen vehicle system (SVS) in the Justice Data Interface Controller (JDIC) and attach the original copy of the teletype update to the original vehicle report. If the

Gardena Police Department

Gardena Procedures Manual

Vehicle Towing and Release

vehicle has been stolen or embezzled from another jurisdiction JDIC will automatically send a locate teletype to the original reporting agency.

502.2.4 VEHICLE IMPOUNDS - HIT AND RUN VEHICLE

The California Vehicle Code, §22655, empowers a police officer to impound a vehicle from a highway, if the officer has reasonable cause to believe that the vehicle has been involved in a hit and run accident. Impounding the vehicle is not mandatory. If an arrest is made, the vehicle should be impounded pursuant to §22651(H) CVC.

A vehicle impounded under §22655(B) CVC must be released on the demand of the owner upon the expiration of forty-eight hours (from the time of the impound of the vehicle). Therefore, it is the responsibility of the officer impounding the vehicle to make arrangements for the scientific examination of the vehicle.

502.2.5 VEHICLE IMPOUNDS - SCIENTIFIC EXAMINATIONS

It is plainly within the realm of a police investigation to subject an object properly seized to scientific examination.

Occasionally, a scientific examination of the vehicle or a laboratory analysis of its contents is desired, and conditions at the scene or at a regular place of impound are unfavorable or are not conducive to a thorough examination. To ensure the safekeeping and security of the vehicle under such conditions, a supervisor may authorize the storage of the vehicle in the secured police department parking lot or other approved location until such time as the examination can be performed. When the examination has been completed, the impounded vehicle shall be removed to a regular place of impound.

502.3 RELEASE OF IMPOUNDED VEHICLES

The officer releasing an impounded vehicle shall confirm that all obligations with the Department of Motor Vehicles, the courts, and this agency have been complied with. The person taking possession of the vehicle must have a valid license and proof of current vehicle registration.

A vehicle may be released to a licensed driver other than the registered owner by either of two ways:

- (a) The registered owner is present and signs the release form
- (b) A notarized letter from the registered owner and a copy of the registered owner's driver license is presented authorizing the third party to take possession of the vehicle

If the vehicle is being held for investigation, the assigned investigator must authorize the release of the vehicle. Once this has been done, the Vehicle Impound Release Form can be completed and the release fee collected. The individual taking possession of the vehicle shall be given a copy of the release form and told which towing company to contact. Upon presentation of satisfactory identification, proof of ownership or written authorization from the present owner, the towing company may release the vehicle. Towing and storage fees are the responsibility of the registered owner.

- (g) The City of Gardena Declaration and Legal Owner's Release and Indemnification Agreement form will be used for this purpose. Legal owners will be responsible for payment of the Department Release Fee prior to release of the vehicle.

This policy is consistent with the legislative intent by attempting to ensure that drivers will not have access to their vehicles, while not unnecessarily penalizing the legal owners. A Records Technician shall complete a City of Gardena Declaration and Legal Owner's Release and Indemnification Agreement. The vehicle representative prior to release shall sign it, when release is made pursuant to this exception.

The Department recognizes that officers will come across unusual situations and circumstances involving the towing of vehicles. In those situations, officers shall review the circumstances with a supervisor prior to towing a vehicle.

504.1 PURPOSE AND SCOPE

This procedure details the steps taken when administering a blood, breath, or urine test for a driver suspected of driving under the influence (DUI) to include the location(s) of the test to be taken, the procedure for administering the tests, and the booking or inclusions of the samples.

The Department currently utilizes the "Datamaster" breath-testing machine. Operation of the Datamaster shall be restricted to personnel who have received training and are certified in its use. When the arresting officer is not certified in the use of the Datamaster, an officer certified in its use shall conduct the breath test.

504.2.1 ADMINISTRATION OF THE BREATH TEST

Prior to administration of the test, the officer shall observe the driver for a fifteen-minute period, during which the driver shall not have been drunk, smoked, or vomited.

The officer shall obtain a Datamaster Check List and an Datamaster Test Record (located near the Datamaster in the Jail fingerprinting area) and complete all preparatory headings on both forms.

At least two samples shall be collected. No waiting period is required between samples. If the readings of the two samples vary more than .02 percentage points, a third or more samples may be required in order to obtain two valid samples. The two valid samples need not be taken in consecutive order.

504.2.2 COMPLETION OF TEST

Upon completion of the test's administration, the officer shall enter the date and time of the test, the driver's name and charge(s), the officer's name and serial number, and the results of the test in the "Datamaster Log Book" located at the Datamaster testing area.

The completed Datamaster Test Record (with the breath test readings listed) shall be stapled to the completed Datamaster Check List and submitted with the Drunk Driving Report.

504.3 BLOOD TEST - LOCATION FOR BLOOD SAMPLE REMOVAL

When a blood test is to be used in determining the alcoholic or drug content of a driver's blood, the driver/arrestee shall be transported to Bayside Medical Center, 2301 W. El Segundo Blvd., Hawthorne, CA 90250, unless extenuating circumstances necessitate use of a different facility.

504.3.1 CRITERIA FOR BLOOD TEST

A blood sample may be obtained when:

Impaired Driving and Evidence Collection

- (a) The driver has chosen the blood test pursuant to the Implied Consent Law.
- (b) The driver is in custody for a felony and the level of intoxication is an essential element of a successful prosecution or as authorized by law in some misdemeanor arrests.
- (c) The driver is unconscious or so impaired so as to be unable to consent to a chemical test.

504.3.2 BLOOD TEST - WITHDRAWAL REQUEST

Whenever a blood sample is obtained from an arrestee, the officer may prepare and sign a Request for Withdrawal of Blood as requested from that facility.

This request form contains a statement regarding the reason for obtaining the blood sample and a waiver stating that the driver is not afflicted with one of the exempting ailments.

The driver shall be asked to sign the request and indicate the date and time of the signing in the presence of the officer or another witness. The officer shall then present the form to hospital personnel.

504.3.3 BLOOD TEST - OBTAINING OF THE SAMPLE

Hospital personnel should utilize a Los Angeles Sheriff's Department Blood Sample Kit when preparing blood samples for the officer. Such kits consist of a white envelope with instructions printed on the front, a vial that contains an anti-coagulant agent, and a seal. Officers shall follow the instructions as specified on the blood sample kit envelope relative to the marking and preparation of the sample and vial.

504.3.4 BLOOD SAMPLE - BOOKING OF THE SAMPLE

Upon obtaining the blood sample, the officer shall seal the marked vial in the supplied envelope as per the instructions on the envelope.

The officer shall complete a Crime Lab receipt for the sample and book it into the RR1 locker or any evidence locker.

Gardena Police Department

Gardena Procedures Manual

Traffic Citations

Chapter 6 - Investigation Operations

Eyewitness Identification

604.1 PURPOSE AND SCOPE

This procedure establishes guidelines for the field identification of suspects and witness transportation.

[Witness Transportation Consent Form](#)

604.2 FIELD IDENTIFICATION ADMONISHMENT

Prior to commencing the Field Identification, officers shall advise the witness or victim of the admonishment authorized by State and/or Federal law.

604.3 TRANSPORTATION OF SUSPECT FOR IDENTIFICATION

The suspect may be transported for the purposes of field identification when:

- (a) The suspect has given a voluntary and willing waiver to participate in the field identification and to be transported in a police unit for that purpose.
- (b) The suspect is under arrest.
- (c) The victims or witnesses are unable to be transported to the location of the suspect's detention (e.g., when the victim or witness has been transported to a hospital).

604.4 TRANSPORTATION OF WITNESS

While at a crime scene, members may conduct a brief investigatory detention of persons who may have been in the immediate vicinity to determine their involvement in the crime, if any (i.e. persons may be suspects, aiders, or abettors).

Once a person is determined to be a witness only, members cannot detain the witness involuntarily. In the event that a witness possesses valuable information but will not consent to voluntarily remain at the scene or await interview by the handling detective or investigator, patrol officers should attempt to do the following:

- (a) Briefly determine the nature of the witness's information
- (b) Obtain valid identification
- (c) Determine when and where the witness can be contacted

However, no individual believed only to be a witness may be forced to remain at the scene or provide identifying information. In these cases, officers should attempt to document identifying information [e.g. vehicle license numbers, photographs (see below)].

604.5 PHOTOGRAPHING WITNESSES

No individual believed only to be a witness may be forced to pose for a photograph without their consent. Area photographs, including individuals in plain view, may be taken without consent.

Gardena Police Department

Gardena Procedures Manual

Eyewitness Identification

Personnel equipped with “body cameras” or vehicles equipped with “in-car video systems”, may record information, including a witness’ refusal to cooperate or provide information.

604.6 WRITTEN CONSENT TO TRANSPORT WITNESSES FOR INTERVIEW

Members of this Department shall utilize consent waiver Form GPD/reg (4/2019) authorizing the voluntary transportation, signed by the witness, or by a person authorized to give consent, prior to transporting the witness to the patrol station for investigative or other purposes.

604.7 INTERVIEW LOCATION

Witnesses should be separated and/or monitored to prevent information contamination or witness intimidation. Treat witnesses as guests and not as suspects. Witnesses should be allowed to use the telephone to notify a friend/family as to their whereabouts, and they should have access to restrooms, food, and drinks.

Upon request, the witnesses should be promptly transported back to their home or desired reasonable location.

Operations Planning and Deconfliction

608.1 PURPOSE AND SCOPE

Planning is an important component to any successful operation. The attached form will assist the member in preparation for a high risk operation.

Chapter 8 - Support Services

Property and Evidence

800.1 PURPOSE AND SCOPE

These procedures are guidelines for the preservation, packaging, marking, booking, storage and release of property taken in by the Gardena Police Department.

800.2 PRESERVATION OF EVIDENCE

Personnel conducting a crime scene search shall be knowledgeable in the recognition and preservation of evidence so as not to destroy the integrity and evidentiary value of any item taken into our custody. The following guidelines (although not inclusive of all safeguards) shall be used:

800.2.1 WET STAINS

Articles bearing wet stains such as blood or semen should be air dried first and then packaged to avoid contamination. The item(s) should then be sealed for transportation to the crime lab.

800.2.2 ODORS OR FLUIDS

When it is desirable to preserve fluids or an article impregnated with an odor or fluid, such as chemicals or flammable fluids, the item(s) should be placed in a clean metal container with lid; sealed and tagged for transportation to the crime lab for analysis.

800.2.3 STAINS

Splattered stains: should be first photographed and or diagramed. Collect and obtain a control sample by using cotton swab and distilled water.

Dried stains: collect dried flakes or use a wet (using distilled water) cotton swab to obtain samples. Air-dry the wet samples and then package for transportation to the crime lab.

Wet stains: collect sample using cotton swab, air dry and package for transportation to the crime lab.

800.2.4 EVIDENCE SCRAPINGS

Evidence scrapings should be collected and packaged in paper bindle. They should be marked for identification to include the location and/or area where from which the sample(s) was taken.

800.2.5 UNCOMMON ARTICLES

An officer or investigator who is in doubt as to a desirable method of preserving any physical evidence, which may be perishable, fragile, contaminable, or microscopic, shall request the advice of the Department's Identification Technician or Crime Laboratory personnel.

800.2.6 FINGERPRINTS

Latent fingerprints or elimination prints will be collected from the scene and booked into evidence using the officer's name, serial number, date, DR# and the location print(s) from which the prints were collected.

Gardena Police Department

Gardena Procedures Manual

Property and Evidence

800.2.7 HANDLING OF ARTICLES

Any article of evidence should be handled with gloved hands and placed into appropriate packaging materials and marked for identification.

800.3 PRESERVATION OF EVIDENCE - PACKAGING

When it is desirable to wrap evidence to prevent contamination or preserve small items, the following shall apply:

- **Packaging Materials:** Clean containers, paper, cotton cloth, or tissue shall be used. Large objects will require wrapping paper while small articles shall be placed in paper packets, envelopes, bottles, or glass vials.
- The investigating officer(s) should seal the container with red evidence tape; then sign and date the tag.
- **Separate Packages:** Physical evidence that is found at different locations, contaminable items, and articles for comparison tests, shall be contained in separate packages.
- **Latent Fingerprints:** Objects suspected of bearing or containing latent fingerprints, which may be important in an investigation, should be packaged so that the possible impressions will be protected.
- **Narcotics:** Narcotics shall be separated from other evidence, packaged, and sealed with sealing wax in the appropriate narcotic evidence package. All narcotic evidence, except substances requiring refrigeration, shall be booked into the evidence lockers.
- **P.C.P.:** All P.C.P. evidence shall be double K-packed and then placed in the freezer portion of the crime lab refrigerator. If there is inadequate space, the I.D. Technician (including after hours) or the Watch Commander or Sergeant shall be contacted.
- **Syringe Container:** In keeping with the recommended procedure of the Los Angeles County Health Department, the Gardena Police Department will use an OSHA approved syringe container. To safely store a syringe within the syringe container, remove the container cap and labels and set aside. Lay the open tube on its side; do not hold the tube in the other hand. If necessary, steady the tube with a pen or other object. Insert the syringe into the tube with the needle toward the closed end. Replace the cap. Lift the tube into the vertical position. Tap the tube several times on a flat surface to embed the needle into the sealing material. Place the bio-hazard seal across the cap and down the sides of the tube. Complete the information sticker and adhere to the tube, making sure the contents are visible. The syringe container is NOT reusable and shall be permanently disposed of as bio-hazardous waste.
- **Poisons:** Poisons shall be placed in non-metal containers and handled with extreme care. If at all possible, the word "Poison" shall be printed in bold letters on the receptacle being booked.

Gardena Police Department

Gardena Procedures Manual

Property and Evidence

800.4 PROPERTY AND EVIDENCE - CUSTODY RESPONSIBILITY

The primary duties of the custodian of property and evidence are the oversight, control, and security of property and/or evidence coming into the possession of the Gardena Police Department. Additional responsibilities include but are not limited to:

- The responsibility for storing property booked in as evidence and the maintenance of records pertaining to the continued possession of the evidentiary item.
- The security of the Property Storage area and other designated areas where property and evidence is stored.
- The receipt and/or release of property from the Property Storage area of the front desk. Evidence or property will not be received or released from other locations throughout the police facility.
- Ensuring that the release of any item is properly authorized and the person receiving such items has a legal right to the property and/or evidence in question. An individual shall sign a release to acknowledge receipt of any item.
- Maintaining records of all found property or property other than evidence turned in for safekeeping. The final disposition of property will be according to law.
- The supervision, distribution, and inventory control of all-general Departmental supplies. When replacements are needed, the Business Office shall be informed.

800.5 PROPERTY STORAGE AREA

Only the Property and Evidence personnel and the Administrative Services Bureau Commander shall have access to the Property Storage Area.

800.6 EVIDENCE IDENTIFICATION & MARKING

No uniform marking system is practical because of the limitless number of articles involved. However, a general rule to follow is that identifying marks shall be as small as practical. Every item of physical evidence, capable of duplication, must be marked by some means that will distinguish it from every other item of like nature, capable of appearing to be a duplicate, a facsimile, or identical to the item. Every identifying mark shall be made, so that it does not destroy the evidentiary value of the item, nor interfere with the work in the laboratory, which may follow the marking process. As a final step in the marking process, evidence tags shall be properly filled out and securely attached to all items or packages of evidence.

800.7 DISTINCTIVE MARKS

Distinctive marks shall be used, such as the initial of the finding officer, together with the date and/or DR Number in possible. An easily duplicated mark such as a cross or check shall not be used. Identifying marks shall be placed on an object in such a way as to avoid altering, contaminating, or destroying other physical evidence that may be present. When it is apparently impossible to mark the surface of an article, markings shall be placed on the container or package in which the article is enclosed. The officer, who either finds the physical evidence or who received it from another person, shall mark it as soon as practical.

Gardena Police Department

Gardena Procedures Manual

Property and Evidence

Serial numbers on articles do not necessarily eliminate the necessity for an identifying mark. Serial numbers and other identifying marks shall be recorded.

800.8 EVIDENCE LOCATION CARD

- (a) The purpose of the Evidence Location Card is to notify the Property Officer of evidence (property) that has been booked in a location other than the downstairs evidence (property) lockers.
- (b) Downstairs evidence (property) lockers are lockers adjacent the property room vault door.
- (c) A location other than the downstairs evidence (property) lockers includes: outside property room, blood dry locker, hazmat locker and freezers.
- (d) Personnel who book evidence (property) in a location other than in than downstairs evidence (property) lockers will fill out an Evidence Card and drop the card into evidence locker A.
- (e) Blank Evidence Location Cards will be placed in the report writing room.

800.9 SPECIAL EVIDENCE MARKINGS

Some common items of evidence require special marking. Examples are:

- **Documents:** Document(s) shall not be marked in any way by anyone other than the specialist who is to conduct the scientific examination. Marking by the specialist shall be done in the presence of the officer submitting such documents, whenever practical.
- **Items Which Cannot Be Marked:** Items which by their very nature cannot be marked, such as, hair, fingernail scrapings, fibers, etc., should be wrapped in a sheet of paper, labeled, and placed in a container which shall be marked by the person placing the item in the container.

800.10 BOOKING EVIDENCE - RESPONSIBILITY

All items of evidence shall be booked in without unnecessary delay by the officer finding the item, the investigating officer, or specialist called to the scene.

800.11 PROPERTY RECEIPTS - ISSUING FOR PROPERTY TAKEN

The Gardena Police Departmental Property Receipt will be given under the following circumstances:

- (a) 1412 PC accounting for property taken from an arrestee: "When money or other property is taken from a defendant, arrested upon a charge of a public offense, the officer taking it must at the time give duplicate receipts therefore, specify particularly the amount of money or the kind of property taken." This is accomplished at the time of booking.
- (b) 1535 PC property seized pursuant to a search warrant: "When the officer takes property under the warrant, he must give a receipt for the property taken (specifying it in detain) to the person from whom it was taken by him, or in whose possession it

Gardena Police Department

Property and Evidence

was found; or, in the absence of any person, he must leave it in the place where he found the property.”

- (c) 12028.5 PC authority of peace officer to take temporary custody of firearm at scene of domestic violence: “...Upon taking custody of a firearm or other deadly weapon, the officer shall give the owner or person who possessed the firearm a receipt. The receipt shall describe the firearm or other deadly weapon and list any identification or serial number of the firearm. The receipt shall indicate where the firearm or other deadly weapon can be recovered, the time limit for recovery as required by 12028.5 PC and the date after which the owner or possessor can recover the firearm or other deadly weapon.
- (d) 2080.10 CC property for safekeeping: “When a public agency obtains possession of personal property from a person for temporary safekeeping, the public agency shall do the following: Provide the person from whom the property was taken with a receipt and instructions for the retrieval of the property...”
- (e) 8102/5150 WIC: “Whenever a person, who has been detained or apprehended for examination of his or her mental condition is found to own, or have in his or her possession or under his or her control, any firearm whatsoever of any other deadly weapon, the firearm or other deadly weapon shall be confiscated... Upon confiscation of any firearm or other deadly weapon, the peace officer shall notify the person of the procedure for the return of any firearm or deadly weapon, which has been confiscated.
- (f) Any person who demands a receipt from whom property was taken.
- (g) After recording confiscated property on the Property Receipt, the officer will obtain the signature of the person from whom the property was taken. The officer will then give the person the second (green) page that includes instructions (on the back of the page) for retrieving property. The first page (white) will be filed with the officer's report.

800.12 STORING EVIDENCE

After an officer or investigator has booked in evidence and/or property, that individual shall properly store the item(s) by placing it in the evidence locker or delivering it to a Property Officer.

Under no circumstances shall perishable items be booked into the evidence lockers. If possible, perishables should be left with the victim/merchant, documented and/or photographed. Perishable items of evidence and/or property that need to be refrigerated, shall be stored in the lab refrigerator/freezer until photographed, then will be destroyed.

During those hours when the Property Officer is on duty, all evidence and/or property shall be taken to the property storage area and shall be either released to the Property Officer or booked into the evidence lockers.

During hours when the Property Officer is not on duty, the evidence and/or property will be placed in one of the storage lockers. The Evidence Tag shall be left with the item(s) after which the locker will be locked. The key will then be dropped into the key drop.

Property and evidence will then be recorded on the officer's original incident report.

Property and Evidence

Items, which are too large to be placed in one of the (downstairs) storage lockers, will be placed in the south (outside) property room.

800.13 STORING FLAMMABLE / HAZARDOUS LIQUID

Hazardous materials are to be placed in the proper container provided for this purpose, which is located in the southwest area of the parking lot.

800.14 STORING FIREWORKS / GUNPOWDER

Fireworks and gunpowder shall be stored in the proper hazardous material containers located in the southwest portion of the police department parking lot.

If, in the opinion of the booking officer or Supervisor, explosive powder or fireworks that are unsafe due to their excessive amount, size, or weight, or condition, should not be booked into the police facility. Los Angeles Sheriff's Bomb Squad or local Fire Department personnel shall be contacted immediately.

The powder and/or fireworks will be given to the responding county personnel. This procedure should be followed regardless of the time of day.

800.15 TRANSPORTATION / CONTINUITY OF PHYSICAL EVIDENCE

Proof of continuity and possession of physical evidence is essential in a trial; therefore, it is desirable that such articles pass through the fewest hands possible. Evidence shall be transported by the finding officer, the investigating officer, or by support personnel called to the crime scene.

The officer assigned to the investigation must arrange any transfer of evidence from one place of custody to another.

800.16 NARCOTICS

Narcotics shall be transported to the station and booked in the prescribed manner as evidence. If the narcotic evidence is to be transported to the Sheriff's Crime Laboratory for analysis, it shall be done in accordance with the procedures developed in this policy.

800.17 VEHICLES - EVIDENCE

Specific instructions shall be given to service personnel in regard to a vehicle that has been impounded as evidence and/or is to be processed for prints. The officer may direct the particular method of transport or accompany the impounded vehicle to preserve the evidentiary value of the vehicle.

Vehicles that are seized as evidence, stolen vehicles, or vehicles that may contain physical evidence may be impounded under the appropriate legal provisions.

Impounded vehicles, upon supervisory approval, may be transported and stored at an approved area, until such time as the required criminalistic examination can be performed.

Gardena Police Department

Gardena Procedures Manual

Property and Evidence

All other items may be transported to the station and booked as evidence, after taking into consideration their potential for contamination, destructibility, and protection.

800.18 EVIDENCE SUBMITTED FOR EXAMINATION BY SHERIFF'S CRIMINALISTICS LABORATORY

The Sheriff's Department has established a system of collecting evidence from law enforcement agencies within Los Angeles County, transporting the evidence to the Sheriff's Crime Lab for scientific examination, and then returning the evidence to the responsible law enforcement agency.

800.18.1 L.A.S.D. TRANSPORTATION OF EVIDENCE

Evidence transportation to and from the Sheriff's Criminalistics Laboratory is to be provided by the Sheriff's Department. Items to be transported will be collected by a Sheriff's Department employee, who will issue a receipt for the evidence. When evidence is returned, the sheriff's employee will require an authorized person to sign for the evidence. This will ensure and maintain the continuity of the possession of the evidence.

800.18.2 REQUESTS FOR ANALYSIS

Blood and urine and narcotic samples (except some cases of marijuana) will be sent to the Sheriff's Laboratory by the department as soon as possible after the sample is collected.

When time is of extreme importance, or it would be beneficial for the detective to discuss the proposed examination with criminalistics personnel, the detective assigned to the case may transport the evidence directly to the Sheriff's Crime Lab.

800.19 REQUEST FOR LABORATORY EXAMINATION - SHERIFF'S DEPARTMENT

The detective requesting the analysis or examination shall complete a request for Laboratory Examination form. The Sheriff's form shall be enclosed or attached securely to the evidence package.

The request shall also indicate what type of examination is required or what action the detective is requesting the Sheriff's Department Crime Laboratory to perform on the evidence.

800.20 SCIENTIFIC EXAMINATIONS AND ANALYSIS BY OTHER AGENCIES

Physical evidence does not have to be sent to the Los Angeles Sheriff's Department Crime Laboratory for examination. At times, it may be desirable or necessary to have a specific scientific examination or analysis done by another agency such as a hospital, the Los Angeles Police Department, or the Federal Bureau of Investigation. These services may also include the use of a private laboratory.

The type of evidence, the manner in which it is obtained, reliability of available facilities, personnel doing the analysis, and the time element involved are all factors to be considered in determining which agency will handle the evidence.

Property and Evidence

800.21 EVIDENCE PRESENTATION IN COURT

The retrieval, preparation, documentation of the chain of evidence and presentation of evidence in court shall be the responsibility of the investigating officer. Evidence may be obtained from the property officer during normal business hours, Monday through Friday.

The responsibility for returning all evidence, which is not introduced into court, shall also rest with the investigator. It is important that all items of evidence from court be returned to the evidence room in its original packaging.

The evidence will be identified by attaching the proper Gardena Police Department evidence identification form containing:

Gardena Police Department

Gardena Procedures Manual

Property and Evidence

800.24 RECEPTACLES FOR EVIDENCE

The Property Officer will maintain evidence destined for the Sheriff's Department Crime Lab.

Items of evidence, which need to be refrigerated, awaiting transportation to the Sheriff's Lab, will be stored in the refrigerator designated for property and evidence.

800.25 ACCESS TO EVIDENCE

If the firearm is placed in a container (i.e., paper bag, cardboard container, etc.), the booking officer shall indicate on the packaging if the weapon is "LOADED" or "UNLOADED." If a magazine is attached, it should be removed from the weapon.

In an investigation of suicide or homicide by gunshot, the weapon shall be secured in its original state until the Los Angeles County Coroner or the Robbery/Homicide Investigator can determine how the weapon will be preserved.

Property and Evidence

800.29 FIREARMS PROCEDURES - GENERAL

Care shall be exercised in handling and examining any firearm being held by this Department in order that it will not become contaminated or its evidentiary value destroyed.

The officer finding, or taking possession of, any firearm, which is to be booked into evidence, is responsible for ascertaining its serial numbers. If the firearm has no serial numbers, the officer shall mark it in such a way that it may be readily identifiable. If marking is necessary, it shall be done in such a manner and location that will not damage the firearm, obliterate any possible latent fingerprints, or contaminate any evidence.

The investigator assigned to an incident in which a firearm was taken, recovered, or used, shall be responsible for processing the weapon. This includes, but is not limited to, entering or clearing the serial numbers with NCIC, obtaining ballistics tests, making all necessary inquiries and notifications, and authorizing the release of the weapon for disposal when it is no longer required to be retained by this Department.

1002.10 PROCEDURES

The exception to the "year-based" term shall be officers assigned to K-9 duties, which will be mainly determined by the ability of the K-9 to perform.
- (b) There are three specialist positions that are designated at "7 year" rotation positions. Within the Detective Bureau, there is the Robbery/Homicide Unit which includes three detectives and a DB Lead Juvenile position. Within the Traffic Bureau, there is one Traffic Investigator position. In accordance with the Gardena Police Officer's Association MOU, the Chief retains the right to modify the rotation period for these positions at this sole discretion.

- (e) Temporary 8-month specialty assignments are generally only available to employees who have never held an investigative position within the department.
- (f) Employees, who have reached 25 years of service with the department and are in a specialty position, are not subject to the rotation policy guidelines provided they maintain acceptable performance standards.

Communicable Diseases

1008.1 PURPOSE AND SCOPE

The following procedures will apply to the disposal and decontamination after responding to an event that involved contact with the person's blood or bodily fluid.

1008.2 USE OF WASTE CONTAINERS

Officers shall dispose of biohazard with the on-scene fire response vehicle, or at the attending clinic/hospital with their approval, or in an appropriately marked biohazard waste container at the station immediately upon arrival.

The biohazard waste container located at the station shall be appropriately labeled with a biohazard warning and routinely emptied.

1008.3 DECONTAMINATION OF SKIN AND MUCOUS MEMBRANES

Personnel shall wash their hands immediately (on-scene if possible), or as soon as possible following the removal of potentially contaminated gloves. Antibacterial soap and warm water or an approved disinfectant shall be used to wash one's hands, paying particular attention to the fingernails.

If an employee's intact skin contacts someone else's blood or bodily fluids or other potentially infectious materials, the employee shall immediately wash the exposed part of his/her body with soap and warm water and/or an approved disinfectant, as soon as possible. If the skin becomes grossly contaminated, body washing shall be followed by an approved hospital strength disinfectant. If large areas of the employee's skin are contaminated, the employee shall shower as soon as possible, using warm water and soap and/or an approved disinfectant. Medical treatment should be obtained.

Contaminated non-intact skin (e.g., injured skin, open wound) shall be cleaned using an approved disinfectant and then dressed or bandaged as required. Medical treatment is required.

All hand, skin, and mucous membrane washing that takes place in the station shall be done in the designated cleaning or decontamination area. Cleaning shall not be done in the kitchen, bathrooms, or other locations not designated as the cleaning or decontamination area.

1008.4 SHARPS AND ITEMS THAT CUT OR PUNCTURE

All personnel shall avoid using or holding sharps (needles) unless needed to do so while assisting a paramedic, or collecting them for evidence. Unless required for evidentiary reasons related to evidence preservation, employees are not to recap sharps. If recapping is necessary, a one-handed method shall be employed to avoid a finger prick. Disposal, when practicable, shall be into a puncture proof biohazard container.

All sharps and items that cut or puncture (e.g., broken glass, razors, and knives) shall be treated cautiously to avoid cutting, stabbing, or puncturing one's self or any other person. In addition, if a

Gardena Police Department

Gardena Procedures Manual

Communicable Diseases

sharp object contains known or suspected blood or other bodily fluids, that item is to be treated as a contaminated item. If the item is not evidence, touching it with the hands shall be avoided. Rather, use a device such as tongs, or a broom and a dustpan to cleanup debris. If the material must be hand held, protective gloves must be worn.

1008.5 DISPOSABLE PROTECTIVE EQUIPMENT

Contaminated disposable supplies (gloves, dressings, CPR mask) shall be transported with the patient or suspect in the ambulance or police vehicle. The waste material shall then be disposed of in a biohazard waste container at the hospital or police station. Disposable gloves are to be worn while placing the waste into the waste biohazard container, placing the gloves in with the waste when through.

1008.6 DECONTAMINATION OF PERSONAL PROTECTIVE EQUIPMENT

After using any reusable personal protective equipment, it shall be washed or disinfected and stored appropriately. If the personal protective equipment is non-reusable (e.g., disposable gloves), it shall be discarded in a biohazard waste container as described in the Communicable Diseases Policy.

Any personal protective equipment that becomes punctured, torn, or loses its integrity, shall be removed as soon as feasible. The employee shall wash up and replace the personal protective equipment if the job has not been terminated. If this situation resulted in a contaminated non-intact skin event, Policy Manual § 1009.3.2 shall be implemented.

Contaminated reusable personal protective equipment that must be transported prior to cleaning it shall be placed into a biohazard waste bag and transported in the ambulance, paramedic truck or police vehicle. Gloves shall be worn while handling the biohazard waste bag and during placement into the biohazard waste container, and then included in with the waste.

1008.7 DECONTAMINATION OF NON-DISPOSABLE EQUIPMENT

Contaminated non-disposable equipment (e.g., flashlight, gun, baton, clothing, portable radio) shall be decontaminated as soon as possible. If it is to be transported, it shall be done by first placing it into a biohazard waste bag.

Grossly contaminated non-disposable equipment items shall be transported to a hospital, fire station, or police station for proper cleaning and disinfecting. Porous surfaces such as nylon bags and straps shall be brushed and scrubbed with a detergent and hot water, laundered and allowed to dry. Non-porous surfaces (e.g., plastic or metal) shall be brushed and scrubbed with detergent and hot water, sprayed with a bleach solution, rinsed, and allowed to dry. Delicate equipment (e.g., radios) should be brushed and scrubbed very carefully using a minimal amount of a type of germicide that is approved by Environmental Protection Agency (EPA) .

While cleaning equipment, pay close attention to handles, controls, portable radios, and corners (tight spots). Equipment cleaning shall not be done in the kitchen, bathrooms, or other areas not designated as the cleaning/decontamination area.

Communicable Diseases

Contaminated equipment should be cleaned using an approved EPA germicide or a 1:100 solution of chlorine bleach (one-quarter-cup of bleach per one gallon of water) while wearing disposable gloves and goggles. Large particles of contaminants such as, vomit, feces, blood clots, etc. should first be removed (using a disposable towel or other means to prevent direct contact) and properly disposed of.

1008.8 DECONTAMINATION OF CLOTHING

Contaminated clothing such as uniforms and undergarments shall be removed as soon as feasible and rinsed in cold water to prevent the setting of bloodstains. If the clothing may be washed in soap and hot water, do so as soon as possible. If the clothing must be dry cleaned, place it into a biohazard waste bag and give it to the Exposure Control Officer. The ECO will secure a dry cleaner that is capable of cleaning contaminated clothing, and inform them of the potential contamination. This dry cleaning will be done at the Department's expense.

Contaminated leather boots shall be brushed and scrubbed with detergent and hot water. If the contaminant soaked through the boot, the boot shall be discarded.

1008.9 DECONTAMINATION OF VEHICLES

Contaminated vehicles and components such as the seats, radios, and doors shall be washed with soap and warm water and disinfected with an approved germicide as soon as feasible.

1008.10 DECONTAMINATION OF STATION AND CLEANING AREA

The ECO shall designate a location at the station that will serve as the area for cleaning/decontamination. This area is to be used to keep equipment clean and sanitary and for the employees to wash any potential contamination from their bodies. This area is to be thoroughly cleaned after each use and to be maintained in a clean and sanitary order at all times between each use. The application of cosmetics, smoking cigarettes, consuming food and drink are prohibited in this designated area at all times.
