Gardena Jail Manual

CHIEF'S MESSAGE

To All Personnel:

The new Gardena Police Department Jail Manual, published October 2018, is a document that is meant to serve as guidelines and to provide policy direction for the operation of the entire organization. It is intended to be a dynamic instrument that is subject to necessary changes and updates, as needed.

It is the responsibility of all employees of this Department to become familiar with the rules, regulations, policies and procedures set forth in this Manual. Copies of the Manual will be distributed, via e-mail, to all personnel and will be available on the Network at all times.

The failure of an employee to know the contents of the Manual will not be a defense in the case of any member considered for disciplinary action for violation of any of the provisions contained herein. In all situations that are not specifically addressed in this manual, it is expected that all personnel will act with good judgment, common sense, and in a manner generally consistent with the purpose of this Manual.

Adherence to this Manual of Policy and Procedure is critical to the overall success of our Department. It assists us in monitoring effectiveness while serving to hold each of us accountable for our actions and activities. It stands as an immediate resource document ready to assist all members of our organization in accomplishing the goals of our stated mission.

LAW ENFORCEMENT CODE OF ETHICS

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.

100.2.1 DISCLAIMER

The provisions contained in the Jail Manual are not intended to create an employment contract nor any employment rights or entitlements. The policies contained within this manual are for the internal use of the Gardena Police Department and shall not be construed to create a higher standard or duty of care for civil or criminal liability against the city, its officials or members. Violations of any provision of any policy contained within this manual shall only form the basis for department administrative action, training or discipline. The Gardena Police Department reserves the right to revise any policy content, in whole or in part.

100.3 RESPONSIBILITIES

The Chief of Police shall be considered the ultimate authority for the provisions of this manual and shall continue to issue General Orders, which shall modify the provisions to which they pertain. The review shall be documented in written form sufficient to indicate that policies and procedures have been reviewed and amended as appropriate to facility changes.

The Administrative Services Bureau Commander should ensure the development and update of an organizational chart identifying the chain of command.

All staff members should adhere to the chain of command in all official actions. However, nothing shall prohibit a staff member from initiating immediate action outside of the chain of command if it is necessitated by a complaint of discrimination, sexual harassment, gross malfeasance or a violation of the law (15 CCR 1029 (a)(1)).

100.3.2 INTERNAL AND EXTERNAL SECURITY MEASURE REVIEW

The Administrative Services Bureau Commander shall ensure that the Jail Manual review, evaluation, and procedures include internal and external security measures of the facility, including security measures specific to the prevention of sexual abuse and sexual harassment (15 CCR 1029).

Each supervisor will ensure that members under his/her command are familiar with and understand all revisions.

Facility Inspection

101.1 PURPOSE AND SCOPE

Jail inspections are the collections of data designed to assist administrators, managers and supervisors in the management of the custody facility by means of establishing a systematic inspection and review of its operation. This policy provides guidelines for conducting the detention facility inspection.

101.2 POLICY

This department will use a formal inspection process of its facility to ensure that practices and operations are in compliance with statutes, regulations, policies and procedures and best practice standards. Inspections will be used to help identify the need for new or revised policies and procedures, administrative needs, funding requirements, evaluation of service providers and changes in laws and regulations.

101.3 FACILITY MANAGER RESPONSIBILITY

The Administrative Services Bureau Commander is responsible for collecting performance indicators and other relevant data to generate and provide an annual inspection of the custody facility. The Administrative Services Bureau Commander will ensure that inspections are conducted as outlined below.

Inspections may be used in preparation of inspections by outside entities, such as a government inspection authority, professional organization or accreditation body. In this case, the local inspection will serve as a pre-inspection review that will prepare the detention facility for the outside or third-party evaluator.

- (c) **On-site inspections** - The assessment team should conduct on-site inspections of the detention facility to verify that activities in the facility are in alignment with goals and objectives and compliant with policies and procedures. Any discrepancies, as well as exceptional efforts on the part of management and staff, should be reported as a part of the detention facility assessment. An inspection checklist should be used to guide the inspection process and to ensure consistency. It is important that the detention

Such staff must not leave the detention facility while inmates are present and should not be assigned duties that could conflict with the supervision of inmates (15 CCR 1027).

When both male and female inmates are held at this detention facility, a minimum of one male and one female employee, who are custody trained and on-duty, should be immediately accessible for the supervision of the inmates (Penal Code § 4021).

Inmate Records

202.1 PURPOSE AND SCOPE

This policy establishes the procedures required to create and maintain accurate records of all persons booked and confined in this detention facility.

Tool, Equipment, Key and Electronic Access Device Controls

203.1 PURPOSE AND SCOPE

The control and accountability of tools, equipment, keys and electronic access devices are vital factors in maintaining a safe and secure environment for inmates, members and the public. This policy outlines the methods that this department will use in maintaining strict security of these items. For ease of reference, the term “key” as used in this policy includes all physical means of access to or exit from the secure areas of the detention facility.

203.2 POLICY

It is the policy of this department that all keys used to access secure areas of the detention facility or to exit the secure areas of the detention facility are strictly controlled (15 CCR 1029(a)(6)). Members will be held accountable for the security and safety of the detention facility.

While there are times that specific inmate workers may need to possess tools or equipment for legitimate daily operations, the possession and use of those tools must be carefully monitored and controlled by staff (15 CCR 1029(a)(6)) to reduce the risk of such items becoming weapons.

203.3 KEY IDENTIFICATION

All keys that open any doors within the detention facility shall be marked with unique identification codes that will allow for quick inventory. Keys that are bundled together as a set shall be numbered or coded with a tag to identify that set and the number of keys on the ring. The identifying numbers or codes on keys shall not correspond to numbers/codes on locks.

A separate secure document identifying all keys will be maintained by the Administrative Services Bureau Commander.

203.4 KEY SET CONTENTS

Key sets issued to members for use within the secure perimeter of the detention facility shall not contain any key that would permit access to areas outside the secure perimeter. The armory key shall not be permitted inside the secure perimeter. Exterior door keys shall not be permitted inside the detention facility except during an emergency requiring access to the exterior doors.

203.5 KEY CONTROL

Members shall not duplicate, mark, alter or manufacture any key without written authorization from the Administrative Services Bureau Commander or the authorized designee.

Under no circumstances will security keys be made available to inmates regardless of their status.

Gardena Jail Manual

Tool, Equipment, Key and Electronic Access Device Controls

203.6 LOCK POLICY

All security perimeter entrances, jail office doors and cell doors shall be kept locked, except when used for admission or exit of employees, inmates or visitors, and in an emergency. Operators of sally ports shall ensure that only one of the doors of a sally port is opened at any time for entry or exit purposes, except where the entry or exit of emergency personnel requires the operator to override the doors and allow for rapid entry or exit.

203.7 TESTING

Locks to security doors or gates shall be tested for proper function to ensure proper operation.

203.8 EXTERIOR DOOR

Keys for exterior doors to the detention facility shall be kept in a locked cabinet in a secure location, outside of the detention facility's secure perimeter.

203.9 EMERGENCY KEY SET

At least one key set containing every key for the detention facility shall be kept separate from all of the other key sets in a secure location and made accessible only to the Administrative Services Bureau Commander or the authorized designee in the event of an emergency.

203.10 MISSING KEYS

Any member who discovers that a key or key set is missing shall immediately make a verbal report to a supervisor and shall prepare a written incident report as directed by the supervisor. The supervisor shall immediately initiate a search for the missing key. If a reasonable effort to locate the key fails, the supervisor shall order a lockdown of the detention facility. All inmates shall be locked in their cells/housing areas and a headcount conducted. Inmates shall not be allowed to pass into or out of the detention facility without being thoroughly searched for the missing key. The supervisor shall, as soon as practicable, notify the Administrative Services Bureau Commander regarding the loss of the key, when it was discovered and the circumstances involved.

A methodical and thorough search of the entire detention facility will be made by on-duty members. Additional members may be called to assist with the search. If, after a thorough search, the key or key set is not located, the Administrative Services Bureau Commander will determine whether to re-key any locks that may have been compromised, and whether this should be done immediately.

The Administrative Services Bureau Commander shall initiate an investigation into the disappearance of the keys to reexamine the procedures for key control and to determine whether procedures governing this policy require an amendment.

203.11 DAMAGED KEYS OR LOCKS

Damaged keys or locks shall be promptly reported to a supervisor. No part of a broken key shall be left in the lock. All portions of the damaged key must be turned in to the Administrative Bureau Commander, who will ensure duplicate keys are provided as needed. Damaged locks shall be

replaced or repaired as soon as practicable. Appropriate security measures shall be taken until such time as the lock is properly restored. No lock to a security door or gate shall be permitted to be inoperable or left in an unsuitable condition. No inmate shall be secured in a cell, detention room or area that has inoperable locks.

203.12 KEY CONTROL RECORDS

Each shift is responsible for reporting any key malfunctions or missing key sets.

203.13 ELECTRONIC ACCESS DEVICES

Proximity cards, fobs or other devices may be issued to members to allow access to restricted or controlled areas of the detention facility. In the event of a lost or stolen device, an employee shall notify his/her supervisor as soon as it is known the device is missing. The device shall be immediately deactivated to prevent unauthorized use.

203.14 TOOL AND EQUIPMENT CONTROL

Tools include all implements that are maintained within the secure perimeter of the detention facility to complete specific tasks. These tools include, but are not limited to, mops, brooms, dustpans and floor polishers.

All tools, culinary items or medical equipment shall be locked in secure cabinets or storage rooms when not in use.

Any time tools are brought into a secure area where inmates are present, members supervising the area shall count the number of tools brought in to ensure that the same number of tools are taken out.

Any tool that is used within the secure perimeter of the detention facility must be closely monitored and controlled by the member supervising the area so that the tool cannot be used as a weapon (15 CCR 1029(a)(6)). Inmates who are assigned tasks that require these tools shall be closely supervised.

The loss of any tool will be immediately reported to the on-duty supervisor, who shall initiate immediate action to locate or account for the missing tool, including:

- (a) Detaining and searching any inmate who had access to the tool.
- (b) Conducting a thorough search of the immediate area for the missing item.
- (c) Initiating a detention facility-wide search.

The member responsible for the supervision of the use of missing tool will prepare and submit a report to the Bureau Commander documenting the specific tool that is missing and the circumstances of the disappearance. The report will be forwarded to the Administrative Services Bureau Commander. All members involved in the search will submit a report to the on-duty supervisor documenting their findings.

203.14.2 SERVING AND INDIVIDUAL EATING UTENSILS

Serving tools and individual utensils are those culinary tools located outside of the kitchen. Only custody officers shall be in control of serving utensils.

Daily Activity Logs and Reports

204.1 PURPOSE AND SCOPE

Accurate and legible records are vital to the management of the detention facility. They provide a means for managers to review events and emergency situations that have occurred within the detention facility.

This policy provides guidance for creating and maintaining accurate and legible records necessary for the management of the detention facility.

If secure custody has been authorized, there shall be unscheduled safety checks no less than every 15 minutes on an irregular schedule. Continuous visual monitoring may be by an audio/video system. The juvenile shall have constant auditory access to the staff.
- (d) Separation by sight and sound shall be maintained between all juveniles and adults in custody (34 USC § 11133). There should also be sight and sound separation between

non-offender juveniles, such as those who may be in protective custody, and juveniles and status offenders.

- (e) Members shall inform a juvenile offender in secure custody the reason for the detention, the estimated length of the detention, and that the detention may last a maximum of six hours.

Inmate Handbook and Orientation

503.1 PURPOSE AND SCOPE

This policy provides for the orientation of inmates booked into the Gardena Police Department detention facility. The purpose of the orientation is to inform inmates of the detention facility routine, rules, inmate rights and services.

503.2 POLICY

The Administrative Services Bureau Commander shall provide an effective method of orienting all incoming inmates that includes orientation materials. The orientation should take place within 24 hours of an inmate's admission and in any event prior to the inmate being moved to housing (15 CCR 1069), and should be an ongoing process in the housing area so that the information is available to the inmates throughout their entire time in custody.

503.2.1 INITIAL ORIENTATION

To assist with the inmate's transition into a custody environment, the orientation will include the following topics, supplemented by a more detailed inmate handbook that will be provided to each inmate (15 CCR 1069):

In addition to English, orientation information will be provided in the most commonly used languages for the inmate population.

The Administrative Services Bureau Commander should consider enlisting the assistance of volunteers who are qualified and proficient in both English and the language in which they are providing translation assistance to translate the orientation information. Use of outside translation sources may also be considered.

Interpretive services will be provided to inmates who do not speak English or any of the other languages in which the orientation information is available.

A written and signed acknowledgment of the orientation and receipt of the handbook should be maintained in the inmate's permanent file.

503.2.2 ORIENTATION FOR NON-READERS, VISUALLY IMPAIRED AND DEAF OR HARD OF HEARING INMATES

Inmates who cannot read, are visually impaired or have intellectual, psychiatric or speech disabilities or limited reading skills, shall have materials read to them by a staff member or presented to them using audible recorded media (28 CFR 115.16; 28 CFR 115.116).

Inmates who are deaf or hard of hearing shall be provided with interpretation services. Reasonable efforts should be made by members to assist the inmate in understanding the information.

Inmate Safety Checks

504.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a requirement for conducting visual safety checks at least every 60 minutes for all inmates, and for creating and maintaining a log to document all safety checks.

504.2 POLICY

It is the policy of the Gardena Police Department that all members shall conduct safety checks at least once every 60 minutes on all inmates, or more frequently as determined by inmate custody status.

Safety checks shall be made through direct visual observation. Cameras and monitors may supplement the required visual observation safety checks but they shall not replace the need for direct visual observation. Safety checks will be clearly documented on permanent logs in accordance with the Department Daily Activity Logs and Reports Policy (15 CCR 1027; 15 CCR 1027.5).

504.3 SAFETY CHECKS

Members shall adhere to the following procedures when conducting safety checks (15 CCR 1027; 15 CCR 1027.5):

- (a) Safety checks shall be conducted at least every 30 minutes and more frequently if necessary.
- (b) Safety checks shall be conducted on an irregular schedule (staggered) so that inmates cannot predict when the checks will occur.
- (c) Safety checks shall be done by personal observation of the officer and shall be sufficient to determine whether the inmate is experiencing any stress or trauma.
- (d) Cameras and monitors may supplement the required visual observation safety checks but they shall not replace direct visual observation.
- (e) Safety checks will be clearly documented on permanent logs in accordance with the Daily Activity Logs and Reports Policy.
- (f) Actual times of the checks and notations should be recorded on the daily activity logs.
- (g) Log entries shall never be made in advance of the actual check. Log entries made in this manner do not represent factual information and are prohibited.
- (h) Special management and intoxicated inmates shall be checked more frequently if necessary.

504.4 SPECIAL MANAGEMENT AND INTOXICATED INMATES

While awaiting transfer to an appropriate facility, inmates who are suicidal, violent, have mental health problems or who demonstrate behavior that is easily identified as out of the ordinary or bizarre should be personally observed by a member every 15 minutes on an irregular schedule. Intoxicated inmates will also be checked every 15 minutes.

Management of Weapons and Control Devices

505.1 PURPOSE AND SCOPE

This policy will address the availability and control of weapons.

505.2 POLICY

It is the policy of the Gardena Police Department that the presence and the use of weapons in the detention facility will be tightly controlled and supervised to reduce the potential for injury. Members will only carry and use those weapons for which they have been trained and are qualified to use (15 CCR 1029(a)(7)(F)).

505.3 FIREARMS

With the exception described below, armed personnel shall secure all firearms in gun lockers located at the entry points prior to entering the secure perimeter. Firearms shall not be stored inside the secure perimeter at any time.

Firearms shall only be allowed in the secure perimeter of the detention facility when it is necessary to protect the safety and security of staff, inmates, contractors, volunteers or the public.

Firearms shall only be allowed inside the secure perimeter with the approval of the Administrative Services Bureau Commander or authorized designee and under the direct supervision of a supervisor.

505.4 OTHER WEAPONS, TOOLS AND CHEMICAL AGENTS

Department-approved weapons, tools and chemical agents, including, but not limited to, batons, ECD, impact weapons, weapon-fired projectiles, noise/flash distraction devices, sting grenades and similar devices, may be possessed and used only by officers who have received department-authorized training and are qualified to use them.

Police officers may carry their ECD and pepper spray inside the secure perimeter. Other Department approved weapons, tools and chemical agents shall only be allowed inside the secure perimeter with the approval of the Administrative Services Bureau Commander or their authorized designee. Service officers shall not carry any weapons, tools or chemical agents.

Control of Inmate Movement

506.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for the safe and secure movement of inmates between areas within the detention facility and transportation from the facility to court, medical appointments or other jurisdictions.

506.2 POLICY

Members shall be vigilant in the control and movement of inmates between areas within the detention facility and when transporting inmates outside the secure confines of the facility (15 CCR 1029(a)(6)). Control may be by direct or indirect visual observation. Members should be aware of their surroundings at all times and take necessary steps to prevent the possession and exchange of contraband.

506.3 MOVEMENT OF INMATES

Movement of one or more inmates in the detention facility should be done in an orderly manner with inmates walking in a single-file line. Members should have situational awareness and should consider the design of the facility, areas of poor visibility and the presence of other inmates being moved. Members should avoid areas where inmates may have access to contraband items.

Depending on the situation and individual security classification/demeanor of the inmates being moved, they may be moved in handcuffs, waist chains, leg irons, etc. as necessary.

Members should be watchful in and around passageways and ensure that sallyport doors are secured to prevent escape.

Use of Restraints

507.1 PURPOSE AND SCOPE

This policy establishes guidelines for the application, supervisory oversight and restrictions on the use of restraints on persons incarcerated in this facility.

This policy shall apply to the use of specific types of restraints, such as four/five-point restraints, ambulatory restraints and similar restraint systems, as well as all other restraints, including handcuffs, waist chains and leg irons, when such restraints are used to restrain any inmate for prolonged periods (15 CCR 1058).

507.2 POLICY

It is the policy of this department that restraints shall be used only to prevent self-injury, injury to others or property damage. Restraints may also be applied according to inmate classification to control the behavior of a high-risk inmate while he/she is being moved outside the cell or housing area.

Restraints shall never be used for retaliation or as punishment. Restraints shall not be utilized any longer than is reasonably necessary to control the inmate. Restraints are to be applied only when less restrictive methods of controlling the dangerous behavior of an inmate have failed or appear likely to fail (15 CCR 1029(a)(4); 15 CCR 1058). Each incident where restraints are used shall be documented by the handling member and the documents placed in the appropriate file prior to the end of the member's shift.

This policy does not apply to the temporary use of restraints, such as handcuffing or the use of leg irons to control an inmate during movement and transportation inside or outside the detention facility.

507.3 USE OF RESTRAINTS - CONTROL

Supervisors shall proactively oversee the use of restraints on any inmate. Whenever feasible, the use of restraints, other than routine use during transfer, shall require the approval of a Bureau Commander prior to application. In instances where prior approval is not feasible, the Bureau Commander shall be apprised of the use of restraints as soon as practicable (15 CCR 1058).

Restraint devices shall only be used on an inmate when it reasonably appears necessary to overcome resistance, prevent escape, or bring an incident under control, thereby preventing injury to the inmate or others, or eliminating the possibility of property damage. Restraints shall not be utilized any longer than is reasonably necessary to achieve the above goals, but no longer than two hours. If the above goals cannot be achieved by applying the restraints set forth in this policy, the inmate should be transferred to the designated facility.

The use of restraints for purposes other than for the controlled movement or transportation of an inmate shall be documented on appropriate logs to include, at a minimum, the type of restraint

Gardena Police Department

Gardena Jail Manual

Use of Restraints

used, when it was applied, a detailed description of why the restraint was needed, and when it was removed (15 CCR 1058).

The following provisions shall be followed when utilizing restraints to control an inmate (15 CCR 1058):

- (a) Restraints shall not be used as punishment, placed around a person's neck, or applied in a way that is likely to cause undue physical discomfort or restrict blood flow or breathing (e.g., hog-tying).
- (b) Restrained inmates shall not be placed face down or in a position that inhibits breathing.
- (c) Restraints shall not be used to secure a person to a fixed object except as a temporary emergency measure. A person who is being transported shall not be locked in any manner to any part of the transporting vehicle, except for items installed for passenger safety, such as seat belts.
- (d) Inmates in restraints shall be housed either alone or in an area designated for restrained inmates.
- (e) Restraints shall be applied for no longer than is reasonably necessary to protect the inmate or others from harm.
- (f) Members shall conduct direct face-to-face observation at least twice every 30 minutes on an irregular schedule to check the inmate's physical well-being and behavior. Restraints shall be checked to verify correct application and to ensure they do not compromise circulation. All checks shall be documented, with the actual time recorded by the person doing the observation, along with a description of the inmate's behavior. Any actions taken should also be noted in the log.
- (g) The specific reasons for the continued need for restraints shall be reviewed, documented and approved by the Administrative Services Bureau Commander or the Bureau Commander at least every hour.
- (h) Within one hour of placement in restraints, a qualified health care professional shall document an opinion regarding the placement and retention of the restraints.
- (i) As soon as practicable, but within four hours of placement in restraints, the inmate shall be medically assessed to determine whether he/she has a serious medical condition that is being masked by the aggressive behavior. The medical assessment shall be a face-to-face evaluation by a qualified health care professional.
- (j) As soon as practicable, but within eight hours of placement in restraints, the inmate must be evaluated by a mental health professional to assess whether the inmate needs immediate and/or long-term mental health treatment. If the Administrative Services Bureau Commander, or the authorized designee, in consultation with responsible health care staff determines that an inmate cannot be safely removed from restraints after eight hours, the inmate shall be taken to a medical facility for further evaluation.

Use of Restraints

507.4 FOOD, HYDRATION AND SANITATION

Inmates who are confined in restraints shall be given food and fluids. Provisions shall be made to accommodate any toileting needs at least once every two hours. Food shall be provided during normal meal periods. Hydration (water or juices) will be provided no less than once every two hours or when requested by the inmate.

Offering food and hydration to inmates will be documented to include the time, the name of the person offering the food or water/juices, and the inmate's response (receptive, rejected). Inmates shall be given the opportunity to clean themselves should they soil themselves or their clothing while they are in restraints (15 CCR 1058).

507.5 AVAILABILITY OF CPR EQUIPMENT

All CPR equipment, such as barrier masks, shall be provided by the facility and located in proximity to the location where inmates in restraints are held (15 CCR 1058).

507.6 RESTRAINED INMATE HOLDING

Restrained inmates should be protected from abuse by other inmates. Under no circumstances will restrained inmates be housed with inmates who are not in restraints. In most instances, restrained inmates are housed alone or in an area designated for restrained inmates (15 CCR 1058).

507.7 PREGNANT INMATES

Restraints will not be used on inmates who are known to be pregnant unless based on an individualized determination that restraints are reasonably necessary for the legitimate safety and security needs of the inmate, the members, or the public. Should restraints be necessary, the restraints shall be the least restrictive available and the most reasonable under the circumstances.

Inmates who are known to be pregnant will not be handcuffed behind their backs or placed in waist restraints or leg irons.

Once pregnancy has been confirmed, a pregnant inmate should be advised of the policies and procedures regarding the restraint of pregnant inmates (Penal Code § 3407; 15 CCR 1058.5).

507.7.1 PREGNANT MINORS

- (a) A minor known to be pregnant or in recovery after delivery shall not be restrained by the use of leg irons, waist chains or handcuffs behind the body.
- (b) A pregnant minor in labor, during delivery or in recovery after delivery shall not be restrained by the wrists, ankles or both unless deemed necessary for the safety and security of the inmate, the staff or the public.
- (c) Restraints shall be removed when a professional, who is responsible for the medical care of a pregnant minor during a medical emergency, labor, delivery or recovery after delivery, determines that the removal of restraints is medically necessary.
- (d) Upon confirmation of a minor's pregnancy, she shall be advised, orally or in writing, of the standards and policies governing pregnant minors.

Searches

508.1 PURPOSE AND SCOPE

The purpose of this policy is to provide clear direction on maintaining the safety and security of the detention facility by conducting searches, in balance with protecting the rights afforded by the United States Constitution.

The introduction of contraband, intoxicants or weapons into the Gardena Police Department detention facility poses a serious risk to the safety and security of members, inmates, volunteers, contractors and the public. Any item that is not available to all inmates may be used as currency by those who possess the item and will allow those in possession of the item to have control over other inmates. Any item that may be used to disengage a lock, other electronic security devices or the physical plant itself seriously jeopardizes the safety and security of this detention facility. Carefully restricting the flow of contraband into this facility can only be achieved by thorough searches of inmates and their environment.

Nothing in this policy is intended to prohibit the otherwise lawful collection of trace evidence from an inmate/arrestee.

508.1.1 DEFINITIONS

Definitions related to this policy include:

Contraband - Anything unauthorized for inmates to possess or anything authorized to possess but in an unauthorized manner or quantity.

Modified strip search - A search that requires a person to remove or rearrange some of his/her clothing that does not include a visual inspection of the breasts, buttocks or genitalia of the person but may include a thorough tactile search of an inmate's partially unclothed body. This also includes searching the inmate's clothing, once it has been removed.

Pat-down search - The normal type of search used by officers within this detention facility to check an individual for weapons or contraband. It involves a thorough patting down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the inmate or other inmates.

Physical body cavity search - A search that includes a visual inspection and may include a physical intrusion into a body cavity. Body cavity means the stomach or rectal cavity of a person, and the vagina of a female person.

Strip search - A search that requires a person to remove or rearrange some or all of his/her clothing to permit a visual inspection of the underclothing, breasts, buttocks, anus or outer genitalia of the person. This includes monitoring of a person showering or changing clothes where the person's underclothing, buttocks, genitalia or female breasts are visible to the monitoring member.

Searches

508.2 POLICY

It is the policy of this department to ensure the safety of members, inmates and visitors by conducting effective and appropriate searches of inmates and areas within the facility in accordance with applicable laws (15 CCR 1029(a)(6)).

Searches shall not be used for intimidation, harassment, punishment or retaliation.

508.3 PAT-DOWN SEARCHES

Pat-down searches will be performed on all inmates/arrestees upon entering the secure booking area of the detention facility. Additionally, pat-down searches shall occur frequently within the detention facility. At a minimum, members shall conduct pat-down searches in circumstances that include:

- (a) When inmates leave their cells to participate in activities elsewhere in the detention facility when they return.
- (b) When inmates leave their housing areas to participate in activities outside of the detention facility (e.g., court, medical appointment) and when they return.
- (c) During physical plant searches of housing areas.
- (d) When inmates come into contact with other inmates housed outside of their housing areas.
- (e) Any time members believe the inmates may have contraband on their persons.

Except in emergencies, male members may not pat down female inmates and female members may not pat down male inmates. Absent the availability of a same sex staff member, it is recommended that a witnessing member be present during any pat-down search of an individual of the opposite sex. All cross-gender pat-down searches shall be documented (28 CFR 115.115).

508.4 MODIFIED STRIP SEARCHES, STRIP SEARCHES AND PHYSICAL BODY CAVITY SEARCHES

Members will generally consider the reason for the search and the scope, intrusion, manner and location of the search, and will utilize the least invasive search method to meet the need for the search. In addition to the specific requirements for each type of search as set forth below, all cross-gender modified strip searches and cross-gender strip searches shall be documented (28 CFR 115.115).

Arrestees who are eligible for release or who will be released when they are no longer intoxicated should not have unmonitored or unsupervised contact with other inmates or be placed in a housing area where they may be subjected to a modified strip search, strip search or physical body cavity search as provided in this policy.

Arrestees who are arranging bail shall be permitted a reasonable period of time, not less than 12 hours, and the opportunity to make phone calls before being placed in a housing area where they may be subjected to a modified strip search, strip search or physical body cavity search as provided in this policy.

508.4.1 MODIFIED STRIP SEARCHES AND STRIP SEARCHES PRIOR TO PLACEMENT IN HOUSING

Modified strip searches and strip searches prior to placement in a housing area shall be conducted as follows:

- (a) No person held prior to placement in housing shall be subjected to a modified strip search or strip search unless there is reasonable suspicion based upon specific and articulable facts to believe the person has a health condition requiring immediate medical attention or is concealing a weapon or contraband. Factors to be considered in determining reasonable suspicion include, but are not limited to:
 - 1. The detection of an object during a pat-down search that may be a weapon or contraband and cannot be safely retrieved without a modified strip search or strip search.
 - 2. Circumstances of a current arrest that specifically indicate the person may be concealing a weapon or contraband. A felony arrest charge or being under the influence of a controlled substance should not suffice as reasonable suspicion absent other facts.
 - 3. Custody history (past possession of contraband while in custody, assaults on staff, escape attempts, etc.).
 - 4. The person's actions or demeanor.
 - 5. Criminal history (level of experience in a custody setting, etc.).
- (b) No modified strip search or strip search of an inmate shall be conducted without prior authorization from the Watch Commander.
- (c) The member conducting the modified strip search or strip search shall:
 - (a) Document the facts that led to the decision to perform a strip search of the inmate.
 - (b) Document the reasons less intrusive methods of searching were not used or were insufficient.
 - (c) Document the supervisor's approval.
 - (d) Document the time, date and location of the search.
 - (e) Document the names, sex and roles of any member present.
 - (f) Itemize in writing all contraband and weapons discovered by the search.
 - (g) Process all contraband and weapons in accordance with the department's current evidence procedures.
 - (h) If appropriate, complete a crime report.
- (d) The documentation shall be placed in the inmate's record. A copy of the written authorization shall be retained and made available to the inmate or other authorized representative upon request.

508.4.2 SEARCHES OF INMATES IN HOUSING

A pat-down search should be conducted when the inmate has entered an environment where contraband or weapons may be accessed. This includes, but is not limited to, the following:

- (a) Upon return from contact visits
- (b) Upon return from outside the confines of the detention facility (e.g., court, medical visits)

Members may conduct modified strip searches and strip searches of inmates only with supervisor approval. Members and supervisors must make a determination to conduct a strip search by balancing the scope of the particular search, intrusion, the manner in which it is conducted, the justification for initiating it and the place in which it is conducted. Less invasive searches should be used if they would meet the need for the search. For example, a pat-down or modified strip search may be sufficient as an initial effort to locate a larger item, such as a cell phone.

The member conducting a modified strip or strip search shall:

- Document in writing the facts that led to the decision to perform a strip search of the inmate.
- Document the reasons less intrusive methods of searching were not used or were insufficient.
- Document the supervisor's approval.
- Document the time, date and location of the search.
- Document the names of members present, their sex and their roles.
- Itemize in writing all contraband and weapons discovered by the search.
- Process all contraband and weapons in accordance with the department's current evidence procedures.
- If appropriate, complete a crime report and/or incident report.
- Ensure the completed documentation is placed in the inmate's file. A copy of the written authorization shall be retained and made available to the inmate or other authorized representative upon request.

508.4.3 MODIFIED STRIP SEARCH AND STRIP SEARCH PROCEDURES

All modified strip searches and strip searches shall be conducted in a professional manner under sanitary conditions and in an area of privacy so that the search cannot be observed by persons not participating in the search.

A modified strip search or strip search shall be conducted by members of the same sex as the person being searched.

Whenever possible, a second member of the same sex should be present during the search for security purposes and to witness the discovery of evidence.

Gardena Police Department

Gardena Jail Manual

Searches

The member conducting a modified strip search or strip search shall not touch the breasts, buttocks or genitalia of the person being searched. These areas may be touched through the clothing during a modified strip search.

- (a) The searching member will instruct the inmate to:
 1. Remove his/her clothing.
 2. Raise his/her arms above the head and turn 360 degrees.
 3. Bend forward and run his/her hands through his/her hair.
 4. Turn his/her head first to the left and then to the right so the searching member can inspect the inmate's ear orifices.
 5. Open his/her mouth and run a finger over the upper and lower gum areas, then raise the tongue so the member can inspect the interior of the inmate's mouth. Remove dentures if applicable.
 6. Turn around and raise one foot first, then the other so the member can check the bottom of each foot.
 7. For a visual cavity search, turn around, bend forward and spread the buttocks if necessary to view the anus.
- (b) At the completion of the search, the inmate should be instructed to dress in either his/her street clothes or detention facility-supplied clothing, as appropriate.

508.4.4 PHYSICAL BODY CAVITY SEARCH

Physical body cavity searches shall be completed as follows:

- (a) No person shall be subjected to a physical body cavity search without approval of the Administrative Services Bureau Commander or the authorized designee and only with the issuance of a search warrant. A copy of any search warrant and the results of the physical body cavity search shall be included with the related reports and made available, upon request, to the inmate or authorized representative (except for those portions of the warrant ordered sealed by a court).
- (b) Only a physician may conduct a physical body cavity search. Except in exigent circumstances, only a physician who is not responsible for providing ongoing care to the inmate may conduct the search (15 CCR 1206(o)).
- (c) Except for the physician conducting the search, persons present must be of the same sex as the person being searched (Penal Code § 4030). Only the necessary members needed to maintain the safety and security of the medical personnel shall be present.
- (d) Privacy requirements, including restricted touching of body parts and sanitary condition requirements, are the same as required for a strip search.
- (e) All such searches shall be documented, including:
 1. The facts that led to the decision to perform a physical body cavity search of the inmate.
 2. The reasons less intrusive methods of searching were not used or were insufficient.

Searches

3. The Administrative Services Bureau Commander's approval.
 4. A copy of the search warrant.
 5. The time, date, and location of the search.
 6. The medical personnel present.
 7. The names, sex, and roles of any member present.
 8. Any contraband or weapons discovered by the search.
- (f) Completed documentation should be placed in the inmate's file. A copy of the written authorization shall be retained and made available to the inmate or other authorized representative upon request.
- (g) All contraband and weapons should be processed in accordance with the department's current evidence procedures.
- (h) If appropriate, the member shall complete a crime report.

508.5 TRANSGENDER SEARCHES

Members shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining genital status (see the Prison Rape Elimination Act Policy for transgender and intersex definitions). If genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records or, if necessary, by obtaining that information as part of a broader medical examination conducted in private by a qualified health care professional (28 CFR 115.115).

508.6 HOUSING AREA SEARCHES

Housing area searches shall occur as directed by a supervisor. These searches should include all of the living spaces occupied by inmates. Housing area searches should be scheduled in a manner that does not create a pattern where the inmates can predict such searches. During a housing area search:

- (a) All inmates shall vacate their living areas and be searched by members.
- (b) Inmates should be escorted to a separate holding area.
- (c) Members shall search living areas of the inmates, including bedding, personal storage areas, bunks and other areas with inmate access.
- (d) Any weapons or contraband located shall be processed in accordance with the current evidence procedures.
- (e) Members shall attempt to identify the inmate who possessed the contraband and file appropriate incident and/or crime reports.
- (f) Any alcoholic beverage possessed by inmates shall be seized and the appropriate incident and/or criminal charges should be filed.
- (g) Any authorized item found in excess of the limited quantity (e.g., food items, newspapers) shall be seized and discarded.

Searches

508.7 PHYSICAL PLANT SEARCHES

The following areas of this detention facility shall be periodically searched for contraband (15 CCR 1029(a)(6)):

- (a) Recreation areas shall be searched for contraband prior to and after each use.
- (b) Cells shall be searched prior to and after each inmate occupies the cell.

508.7.1 CANINE-ASSISTED SEARCHES

It is the policy of this department to use canines to assist members in searching for contraband. Such searches shall occur only with the approval of a supervisor. Only canines trained in the detection of contraband, such as drugs, alcohol and weapons, will be allowed within the secure perimeter of the detention facility. Canines trained solely in crowd control or to assist in physically subduing individuals will not be used in the detention facility.

Canines will generally be used to assist members in general physical plant or living area searches. Contact between inmates and canines should be kept to a minimum (see the Canines Policy).

508.8 CRIMINAL EVIDENCE SEARCHES

The Administrative Services Bureau Commander or the authorized designee shall be notified, as soon as practicable, any time it is suspected that a crime has been committed in the detention facility or other area controlled by the detention facility members, and there is a need to search for evidence related to the crime.

Any evidence collected in connection with an alleged crime shall be reported, documented and stored to protect it from contamination, loss or tampering, and to establish the appropriate chain of custody. A search for evidence may be conducted by members whenever there is a need for such action.

508.9 TRAINING

The Administrative Services Bureau Commander shall provide training for members in how to conduct pat-downs, modified strip searches and strip searches in a professional and respectful manner and in the least intrusive manner possible, consistent with detention facility security needs. This training shall include cross-gender pat downs and searches, as well as searches of transgender and intersex inmates (28 CFR 115.115).

Reporting In-Custody Deaths

509.1 PURPOSE AND SCOPE

This policy provides direction on how in-custody deaths shall be reported.

509.1.1 DEFINITIONS

Definitions related to this policy include:

In-custody death - The death of any person, for whatever reason (natural, suicide, homicide, accident), who is in the process of being booked or is incarcerated in this detention facility.

509.2 POLICY

It is the policy of this department to follow state and local guidelines for reporting in-custody deaths (15 CCR 1046).

509.3 MANDATORY REPORTING

All in-custody deaths shall be reported as required.

If the decedent is a boarder for another agency, the Administrative Services Bureau Commander shall notify that agency so that agency will assume responsibility for the notification of the decedent's family.

Pursuant to Article 37 of the Vienna Convention on Consular Relations 1963, in the case of the death of a foreign national, telephonic notification to the appropriate consulate post should be made without unreasonable delay and confirmatory written notification shall be made within 72 hours of the death to the appropriate consulate post. Safety and Sobering Cells

512.1 PURPOSE AND SCOPE

This policy establishes the requirement for placing inmates into and the continued placement of inmates in sobering cells. The Gardena City Jail does not have a safety cell. Those inmates requiring the use of a safety cell will be monitored by the custody staff until they are transported to the Los Angeles County Jail. This transportation shall be done as soon as possible.

512.1.1 DEFINITIONS

Definitions related to this policy include

Sobering cell - A holding cell designed to minimize the risk of injury by falling or dangerous behavior. It is used as an initial sobering place for arrestees or inmates who are a threat to their own safety or the safety of others as a result of being intoxicated from any substance, and who require a protected environment to prevent injury or victimization by other inmates.

512.2 POLICY

This detention facility will employ the use of sobering cells to protect inmates from injury or to prevent the destruction of property by an inmate in accordance with applicable law (15 CCR 1055).

A sobering or safety cell shall not be used as punishment or as a substitute for treatment. The Administrative Services Bureau Commander or the authorized designee shall review this policy annually with the Responsible Physician.

512.3 SOBERING CELL PROCEDURES

The following guidelines apply when placing any inmate in a sobering cell (15 CCR 1056):

- (a) When an officer brings an arrestee into the jail for an intoxication offense, the Service Officer will make an initial assessment to determine the individual's level of intoxication. The Service Officer will complete an "Inebriate Assessment" form (GPD 6-28). This form shall be used to list the symptoms that cause an inmate to be placed in the sobering cell. In addition to the custody log, this form shall also be used to document the checks being done on the inmate. Inebriate Assessment forms and custody logs will be retained in accordance with established department records retention schedules.
- (b) A safety check consisting of direct visual observation that is sufficient to assess the inmate's well-being and behavior shall occur at least once every 15 minutes. Each visual observation of the inmate by members shall be documented.
- (c) Under no circumstances shall an inmate be held in a sobering cell for more than six hours without being evaluated by qualified medical personnel to ensure that the inmate does not have an urgent medical issue.
- (d) Inmates will be removed from the sobering cell when they no longer pose a threat to their own safety and the safety of others and are able to continue the booking process.
- (e) Females and males will be detained in separate sobering cells.

In the case of an inadvertent release, the Watch Commander should immediately notify the Administrative Services Bureau Commander and ensure a report is completed. The Administrative Services Bureau Commander should notify the Chief of Police.

An appropriate evaluation of the circumstances shall be made to determine whether the inadvertent release should be classified as an escape.

513.3.2 RETURNING THE INMATE TO CUSTODY

When the inmate is located and returned to the detention facility, the appropriate notifications should be made as soon as possible.

602.4 SHAVING

Upon receiving a completed inmate grievance, the supervisor shall ensure that the grievance is investigated and resolved or denied in a timely manner.

Findings relating to the investigation will be forwarded to the Administrative Services Bureau Commander. Any appeals shall be forwarded to the Administrative Services Bureau Commander as the final level of appeal.

Written reasons for denial of each grievance shall be at each level of review which acts on the grievance.

603.4.3 APPEALS TO GRIEVANCE FINDINGS

Pregnant inmates will normally be sent to the Los Angeles County Jail.

704.7 NON-PRESCRIPTION MEDICATION

Some non-prescription medications may be furnished for minor complaints. Such medications include aspirin (Tylenol), non-aspirin, antacids, cold pills etc. If an inmate asks for medication to relieve some type of discomfort the jailer shall advise him/her what is available and let him/her make the selection. This relieves the jailer from liability in prescribing drugs. The jailer shall not make any suggestions as to which drug is best for any particular ailment or discomfort.

Documenting the furnishing of any non-prescription medications will be written on a medical slip and placed with the inmates booking package.

Jailers, at the start of their shift, will check for expiration dates on all non-prescription medication and log it in the Custody Log. Chapter 8 - Environmental Health

Sanitation, Maintenance and Safety Inspections

800.1 PURPOSE AND SCOPE

The Gardena Police Department has established a plan to promote and comply with the environmental safety and sanitation requirements established by applicable laws, ordinances, and regulations. This policy establishes a plan of housekeeping tasks and inspections to identify and correct unsanitary or unsafe conditions or work practices in this facility.

800.2 POLICY

It is the policy of the Department to maintain a safe and sanitary detention facility. To accomplish this goal, the Department will maintain a written plan that contains schedules and procedures for conducting daily, weekly and monthly sanitation, maintenance and safety inspections of the detention facility.

800.3 SAFETY AND SANITATION PLAN

The Administrative Services Bureau Commander will ensure that the plan addresses, at a minimum (15 CCR 1280):

- (a) Schedules of functions (e.g., daily, weekly, monthly or seasonal cleaning, maintenance, pest control and safety surveys).
- (b) Self-inspection checklists to identify problems and to ensure cleanliness of the detention facility.
- (c) Procedures, schedules and responsibilities for coordinating annual inspections by the health department having jurisdiction, including how deficiencies on the inspection report are to be corrected in a timely manner.
- (d) A list of approved equipment, cleaning compounds, chemicals and related materials used in the detention facility, and instructions on how to operate, dilute or apply the material in a safe manner.
- (e) Record-keeping of self-inspection procedures, forms and actions taken to correct deficiencies.
- (f) Training requirements for members and inmate workers on accident prevention and avoidance of hazards with regard to detention facility maintenance.
- (g) Supervision of the members and inmates to ensure proper implementation of the procedures and to ensure that no inmate supervises or assigns work to another inmate.
- (h) All inmate responsibilities, which should be included in the inmate orientation materials.
- (i) Detailed processes for the procurement, storage and inventory of cleaning supplies and equipment.
- (j) A process for the preventive maintenance of equipment and systems throughout the detention facility.

Gardena Police Department

Gardena Jail Manual

Sanitation, Maintenance and Safety Inspections

Consideration should be given to general job descriptions and/or limitations relating to members assigned to carry out the plan.

To the extent possible, cleaning and janitorial supplies shall be nontoxic to humans. Any poisonous, caustic or otherwise harmful substances used for cleaning shall be clearly labeled and kept in a locked storage area.

All members shall report any unsanitary or unsafe conditions to a supervisor. Members shall report repairs needed to the physical plant and equipment by submitting a repair order to a supervisor. The Administrative Services Bureau Commander will designate a member to receive these work orders and take appropriate action to ensure the repairs are made or action is taken. All work and action taken will also be documented.

Reports for budget resources above and beyond already budgeted maintenance items shall be reported to the Chief of Police.

800.4 SANITATION SCHEDULE AND INSPECTION

Members should implement a site-specific plan for cleaning and maintenance. A daily, weekly and monthly cleaning schedule will be established for each area of the detention facility (e.g., housing, food preparation, laundry, loading dock/trash storage, barber shop, warehouse, common areas). The following recommendations include, but are not limited to, specific areas and items:

- (a) Daily cleaning:

 - 5. Hydrogen Peroxide (spray and wipes by Clorox) disinfectant is being used for the disinfection of the handcuffs
- (c) Monthly cleaning:
 - 1. Walls
 - 2. Ceilings
 - 3. Bunk pans

Gardena Police Department

Gardena Jail Manual

Sanitation, Maintenance and Safety Inspections

800.4.1 INSPECTION CHECKLIST

The Administrative Services Bureau Commander or the authorized designee should develop an inspection checklist that includes the cleaning and maintenance items that will be checked by supervisors on a daily, weekly and monthly basis throughout the detention facility.

The inspection checklist will closely correspond to the established cleaning and maintenance schedule.

Inspection checklists shall be forwarded to the Administrative Services Bureau Commander or the authorized designee for annual review, filing and retention as required by the established records retention schedule.

800.5 VERMIN AND PEST CONTROL

The Administrative Services Bureau Commander or the authorized designee shall be responsible for developing and implementing a plan for sanitation and control of vermin and pests. In cooperation with the Responsible Physician and the local public health entity, medical protocols for treating inmate clothing, personal effects and living areas, including specific guidelines for treating an infested inmate, will be established (15 CCR 1264).

800.5.1 PEST CONTROL SERVICES

The Administrative Services Bureau Commander or the authorized designee shall be responsible for procuring the services of a licensed pest control professional if necessary to perform inspections of the detention facility at least monthly and to treat areas as required to ensure that vermin and pests are controlled.

800.5.2 PREVENTION AND CONTROL

Many infestations and infections are the result of a recently admitted inmate who is vermin infested or whose property is vermin infested. Most infestations are spread by direct contact with an infected person or with infested clothing and bedding. Inmates with lice or mites should be treated with approved pediculicides as soon as the infestation is identified to avoid spreading it. To reduce the chance of further transmission, separate quarters for inmates undergoing treatment for lice should be used.

Because the use of the treatment chemicals can cause allergic reactions and other negative effects, treatment should be done only when an infestation is identified and not as a matter of routine.

Clothing, bedding and other property that is suspected of being infested shall either be removed from the detention facility or cleaned and treated by the following methods, as appropriate, or as directed by the pest control provider or the Responsible Physician (15 CCR 1264):

- Washing in water at 140 degrees for 20 minutes
- Tumbling in a clothes dryer at 140 degrees for 20 minutes
- Dry cleaning
- Storing in sealed plastic bags for 30 days

Gardena Police Department

Sanitation, Maintenance and Safety Inspections

- Treating with an insecticide specifically labeled for this purpose

800.5.3 LABELING AND SECURE STORAGE OF COMPOUNDS

Containers of pest exterminating compounds shall be conspicuously labeled for identification of contents. The containers shall be securely stored separately from food and kitchenware, and shall not be accessible by inmates.

Inmate Hygiene

801.1 PURPOSE AND SCOPE

This policy outlines the procedures that will be taken to ensure the personal hygiene of every inmate in the Gardena Police Department detention facility is maintained. The Gardena Police Department recognizes the importance of each inmate maintaining acceptable personal hygiene practices by providing adequate bathing facilities, the issuance and exchange of clothing, bedding, linens, towels and other necessary personal hygiene items.

801.2 POLICY

It is the policy of Gardena Police Department facility to maintain a high standard of hygiene in compliance with the requirements established by all state laws, ordinances and regulations (15 CCR 1069(b)(3)). Compliance with laws and regulations relating to good inmate hygiene practice is closely linked with good sanitation practices. Therefore, the need to maintain a high level of hygiene is not only for the protection of all inmates but for the safety of members and visitors. The Administrative Services Bureau Commander shall ensure the basic necessities related to personal care are provided to each inmate upon entry into housing.

801.3 STORAGE SPACE

There should be adequate and appropriate storage space for inmates' bedding, towels and wash clothes. The inventory of bedding, towels and wash cloths should exceed the maximum inmate population so that a reserve is always available (15 CCR 1263).

The facility should have bedding, personal hygiene items, cleaning supplies and any other items required for the daily operation of the detention facility, including the exchange or disposal of soiled or depleted items. Members shall ensure that the storage areas are properly maintained and stocked. The Administrative Services Bureau Commander should be notified if additional storage space is needed.

801.3.1 BEDDING ISSUE

Upon entering a living area of the Gardena Police Department detention facility, every inmate who is expected to remain in the detention facility for over eight hours shall be issued bedding including, but not limited to (15 CCR 1270):

Additional clothing may be issued as necessary for changing weather conditions or as seasonally appropriate. An inmate's personal undergarments and footwear may be substituted for the institutional undergarments and footwear, provided there is a legitimate medical necessity for the items and they are approved by the medical staff.

Each inmate assigned to a special work area, such as food services and other specified work, shall be clothed in accordance with the requirements of the job, including any appropriate protective clothing and equipment which shall be exchanged as frequently as the work assignment requires (15 CCR 1261).

Gardena Police Department

Gardena Jail Manual

Inmate Hygiene

The Administrative Services Bureau Commander or the authorized designee shall conduct both scheduled and unannounced inspections of the detention facility to ensure that clothing issuance policies and procedures are carried out in accordance with the applicable laws and regulations.

The Administrative Services Bureau Commander or the authorized designee shall ensure that the detention facility maintains a sufficient inventory of extra clothing to ensure each inmate shall have neat and clean clothing appropriate to the season.

An inmate's excess personal clothing shall be mailed to, picked up by, or transported to a designated family member, or stored in containers designed for such purpose. All inmate personal property shall be properly identified, inventoried, and secured. Inmates shall sign and receive a copy of the inventory record.

801.4 LAUNDRY SERVICES

Laundry services shall be managed so that towels, wash cloths and bedding needs are met. The jailer will collect all used blankets and placed them in a container marked only for dirty blankets. The dirty blankets shall be cleaned by custody staff prior to being reissued. The jailer will insure that the dirty blankets do not come in contact with the freshly cleaned blankets by placing them in a separate container. This will also apply to the towels and wash cloths. The towels and wash cloths will also be cleaned by custody personnel prior to being reissued

In the event the jailer observes a set of towels, wash cloths, or blankets that have been contaminated with potential infectious materials such as blood, feces, wound drainage, and other substances, he or she will place the contaminated items in a plastic bag and clearly label them for disposal. The items then will be disposed of as medical waste.

901.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that the nutritional needs of the inmates are met and that overall health is promoted through the use of balanced nutritious diets.

901.2 POLICY

It is the policy of this department that diets provided by this facility will meet or exceed the guidelines established in the current publications of the Dietary Reference Intakes (DRI) of the Food and Nutrition Board, Institute of Medicine of the National Academies, the California Food Guide (CFG), and the U.S. Department of Agriculture's Dietary Guidelines for Americans (DGA).

901.3 REVIEW OF DIETARY ALLOWANCES

Chapter 10 - Inmate Programs

Inmate Mail

1000.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the receipt, rejection, inspection and sending of inmate mail.

1000.2 POLICY

This department will provide ample opportunity for inmates to send and receive mail, subject to restriction only when there is a legitimate government interest.

1000.3 MAIL GENERALLY

Due to the relatively short period of time inmates are held in this facility, mail, for the purposes of this manual, shall include notes or messages hand delivered to the front counter

Inmates may, at their own expense, send and receive mail without restrictions on quantity, provided it does not jeopardize the safety of members, visitors or other inmates, or pose an unreasonable disruption to the orderly operation of the Jail (15 CCR 1063(a)).

1000.4 CONFIDENTIAL CORRESPONDENCE

Inmates may correspond confidentially with courts, any member of the bar, officials of this department, elected officials, jail inspectors, government officials or officers of the court (15 CCR 1063).

This detention facility will also accept and deliver a fax or inter-office mail from these entities.

Members may inspect incoming confidential correspondence for contraband. Members may inspect outgoing confidential correspondence for contraband before it is sealed. In the event that confidential correspondence is inspected, members shall limit the inspection to a search for physical items that may be included in addition to the correspondence and shall not read or photocopy the content of the correspondence itself. All inspections are to be completed in the presence of the inmate (15 CCR 1063(c)).

1000.5 SUSPENSION/RESTRICTION OF MAIL PRIVILEGES

Mail privileges may be suspended or restricted upon approval of the Administrative Services Bureau Commander whenever members become aware of mail sent by an inmate that involves (15 CCR 1083(h)):

- (a) Threats of violence against any member of the government, judiciary, legal representatives, victims or witnesses.
- (b) Incoming or outgoing mail representing a threat to the security of the detention facility, members or the public.

Gardena Police Department

Gardena Jail Manual

Inmate Mail

The District Attorney or City Attorney should be consulted in cases where criminal charges are considered against an inmate or there is an apparent liability risk to the Department that relates to suspension or restriction of mail privileges.

1000.6 NEWSPAPERS

A local daily newspaper in general circulation, including a non-English publication, shall be made available to interested inmates (15 CCR 1066(b)).

1000.7 INDIGENT INMATE REQUESTS FOR WRITING MATERIALS

Indigent inmates shall receive an amount of pre-stamped envelopes and writing paper sufficient to maintain communication with courts and legal counsel department (15 CCR 1063(e)).

Inmate Telephone Access

1001.1 PURPOSE AND SCOPE

This policy establishes guidelines for permitting inmates to access and use telephones.

1001.2 POLICY

The Jail will provide access to telephones for use by inmates consistent with federal and state law. The Administrative Services Bureau Commander or the authorized designee shall develop written procedures establishing the guidelines for access and usage (15 CCR 1067).

1001.3 PROCEDURE

Inmates in housing will be permitted reasonable access to public telephones at scheduled times for collect calls unless such access may cause an unsafe situation for the detention facility, members or other inmates. The Administrative Services Bureau Commander shall ensure a notice is conspicuously posted near the telephones informing the inmates that non-attorney calls may be monitored and recorded.

Inmates are not permitted to receive telephone calls. Messages will only be delivered in the event of a verified emergency.

In the event of a detention facility emergency, or as directed by the supervisor or Administrative Services Bureau Commander, all telephones will be turned off.

For security reasons, inmates who are awaiting transport to another facility or release to another agency are not permitted to use the telephones.

The minimum time allowed per call should be 10 minutes, except where there are substantial reasons to justify such limitations. Reasons for denial of telephone access shall be documented and a copy placed into the inmate's file.

Members should monitor the use of public telephones to ensure inmates have reasonable and equitable access and that the rules of use are observed. Any inmate refusing to cooperate with the telephone rules may have his/her call terminated or telephone privileges suspended.

Requirements relating to the use of telephones during booking and reception are contained in the Inmate Reception and Housing Policy.

1001.4 COURT-ORDERED TELEPHONE CALLS

If a court order specifying free telephone calls is received by the detention facility, or a supervisor determines there is a legitimate need for a free telephone call for a specific inmate, the supervisor may direct that an inmate use a detention facility telephone at no charge. Calls placed from a detention facility telephone should be dialed by a member. The member should be responsible for ensuring that the inmate is not calling a number that has been restricted by a court order or by request of the recipient. Such a call should be recorded to the same extent authorized for calls that are not court-ordered.

Gardena Police Department

Gardena Jail Manual

Inmate Telephone Access

1001.5 ATTORNEY-CLIENT TELEPHONE CONSULTATION

At all times through the period of custody, whether the inmate has been charged, tried, convicted or sentenced, reasonable and non-recorded telephone access to an attorney shall be provided to the inmate at no charge to either the attorney or to the inmate, in accordance with the Inmate Rights and Protection Policy.

1001.6 TELEPHONE CONTRACTS AND CHARGES

The Administrative Services Bureau Commander or the authorized designee is responsible for ensuring that rates charged to inmates are similar to those charged in the general public and that inmates are afforded a range of feasible calling options.

Inmate Visitation

1002.1 PURPOSE AND SCOPE

The purpose of this policy is to establish rules for visitation and to provide a process for inmate visits and visitors. Visitation is a privilege and is based on space availability, schedules and on-duty staffing.

1002.2 POLICY

The Administrative Services Bureau Commander shall develop written procedures for inmate visiting, which provide for as many visits and visitors as detention facility schedules, space and number of staff will reasonably allow, with no fewer visits allowed than specified by 15 CCR 1062. Non-sentenced inmates will be afforded a visit no later than the calendar day following arrest. These procedures are subject to safety and security requirements.

Court orders granting a special inmate visitation are subject to city legal review and interpretation.

1002.3 PROCEDURES

The Department shall provide adequate facilities for visiting that include appropriate space for the screening and searching of inmates and visitors and storage of visitors' personal belongings that are not allowed in the visiting area.

Limitations on the number of visitors and allotted visiting time are determined by:

- The detention facility's schedule.
- The space available to accommodate visitors.
- Whether an emergency or other conditions justify a limitation in visiting privileges.

The Administrative Services Bureau Commander or the authorized designee is responsible for defining, in writing, the conditions under which visits may be denied.

The visiting area should accommodate inmates and visitors with disabilities. Visitors with disabilities who request special accommodations shall be referred to a supervisor. Reasonable accommodations will be granted to inmates and disabled visitors to facilitate a visitation period.

Visitor logs and records shall be developed and maintained in accordance with established records retention schedules.

1002.3.1 VISITOR REGISTRATION AND IDENTIFICATION

All visitors must register and produce a valid state, military, tribal or other government identification. Identification will be considered valid for 90 days after expiration, provided the visitor has renewed the ID and has proof of the renewal.

- (a) The registration form must include the visitor's name, address and the relationship to the inmate.
- (b) A valid identification shall include the following:

Gardena Police Department

Gardena Jail Manual

Inmate Visitation

1. A photograph of the person
 2. A physical description of the person
- (c) An official visitor shall present proof of professional capacity (e.g., attorney license/ Supreme Court card, police identification or a business card/letterhead of business with the visitor's name).

Failure or refusal to provide a valid identification is reason to deny a visit.

1002.4 AUTHORIZATION TO SEARCH VISITORS

Individuals who enter the secure perimeter of this detention facility are subject to search if there is reasonable cause to believe the visitor has violated the law, is wanted by a law enforcement agency, or is attempting to bring contraband onto the facility property or into the detention facility. All searches shall be made in accordance with current legal statutes and case law.

1002.5 VISITING SCHEDULE

The Administrative Services Bureau Commander shall designate a person to develop a schedule for inmate visitation that includes daytime, evening and weekend hours.

1002.6 DENIAL OR TERMINATION OF VISITING PRIVILEGES

Visitation may be denied or terminated by a supervisor if the visitor poses a danger to the security of the detention facility or there is other good cause, including, but not limited to, the following:

- (a) The visitor appears to be under the influence of drugs and/or alcoholic beverages.
- (b) The visitor refuses to submit to being searched.
- (c) The visitor or inmate violates detention facility rules or posted visiting rules.
- (d) The visitor fails to supervise and maintain control of any minors accompanying him/ her into the detention facility.
- (e) Visitors attempting to enter this detention facility with contraband will be denied a visit and may face criminal charges.

Any visitation that is denied or terminated early, on the reasonable grounds that the visit may endanger the security of the detention facility, should have actions and reasons documented. A copy of the documentation will be placed into the inmate's file and another copy will be forwarded to the Administrative Services Bureau Commander.

1002.7 GENERAL VISITATION RULES

All visitors and inmates will be required to observe the following general rules during visitation.

- (a) A maximum of one adult and one child will be permitted to visit an inmate at any one time. Where a dispute over children visiting occurs between the inmate and the parent or legal guardian, the inmate will be advised to use the court for resolution. Adults must control minors while they are waiting to visit and during the visit (15 CCR 1062).
- (b) An inmate may refuse to visit with a particular individual.

Gardena Police Department

Gardena Jail Manual

Inmate Visitation

- (c) Those inmates who are named as the restrained person in any restraining or other valid court order shall not be allowed visits from persons who are protected by the order.
- (d) Visitors must be appropriately attired prior to entry into the visitor's area of the detention facility.
- (e) Inappropriate clothing, such as transparent clothing, halter tops, excessively tight or revealing clothing, hats and bandannas or any other clothes associated with a criminal gang or otherwise deemed by members to be unacceptable will not be permitted.
- (f) All visitors must have footwear.
- (g) Visitors will leave all personal items, with the exception of car keys and identification, outside of the secure area. Visitors who enter the detention facility with handbags, packages or other personal items will be instructed to lock the items in a vehicle or locker or return at another time without the items. The detention facility is not responsible for lost or stolen items.
- (h) Food or drink is not permitted in the visitor's area.
- (i) Inmates will be permitted to sign legal documents, vehicle release forms or any other items authorized by the Bureau Commander. Transactions of this nature will not constitute a regular visit.

1002.8 ATTORNEY VISITS

Inmates shall have access to any attorney retained by or on behalf of the inmate, or to an attorney the inmate desires to consult, in a private interview room. Members shall not interfere with, suspend or cancel official visits except in circumstances where the safety, security or good order of the detention facility is compromised (15 CCR 1068(b)).

Religious Programs

1003.1 PURPOSE AND SCOPE

This policy provides guidance regarding the right of inmates to exercise their religion and for evaluating accommodation requests for faith-based religious practices of inmates (15 CCR 1072).

1003.1.1 DEFINITIONS

Definitions related to this policy include:

Compelling government interest - A method of determining the constitutionality of a policy that restricts the practice of a fundamental right. In order for such a policy to be valid, there must be a compelling government interest, which is necessary or crucial to the mission of the Department, as opposed to something merely preferred, that can be furthered only by the policy under review.

Least restrictive means - A standard imposed by the courts when considering the validity of policies that touch upon constitutional interests. If the Department adopts a policy that restricts a fundamental religious liberty, it must employ the least restrictive measures possible to achieve its goal.

Exercise of religion - Any action or practice performed whether compelled by, or central to, a system of religious belief. The key is not what a faith requires but whether the practice is included in the inmate's sincerely held religious beliefs.

1003.2 POLICY

It is the policy of this department to permit inmates to engage in the lawful practices and observances of their sincerely held religious beliefs consistent with the legitimate government objectives of the detention facility.

1003.3 RELIGIOUS BELIEFS AND ACCOMMODATION REQUESTS

Inmates are not required to identify or express a religious belief. An inmate may designate any belief, or no belief, during the intake process and may change a designation at any time. Inmates seeking to engage in religious practices shall submit a request through the established procedure.

All requests for accommodation of religious practices shall be treated equally, regardless of the religion that is involved. Equal and consistent treatment of all religions and religious beliefs shall not always require that all inmates of the same religion receive the same accommodations. Requests for accommodation of religious practices shall be submitted to a supervisor. In determining whether to grant or deny a request for accommodation of a religious practice, the supervisor will determine the sincerity of the religious claim of an inmate. Requests should be denied only if the denial or reason for denial would further a compelling government interest of the detention facility and is the least restrictive means of furthering that compelling government interest.

Religious Programs

The Administrative Services Bureau Commander and the Chief of Police shall be informed of all approved accommodations. The Watch Commander should make any necessary notifications to staff as necessary to meet an approved accommodation.

All inmate requests for religious accommodations and related determinations shall be fully documented in the inmate's record.

1003.3.1 SUSPENSION OR REVOCATION OF ACCOMMODATIONS

In an emergency or extended disruption of normal detention facility operations, the Administrative Services Bureau Commander may suspend any religious accommodation. The Administrative Services Bureau Commander may also revoke or modify an approved religious accommodation if the accommodated inmate violates the terms or conditions under which the accommodation was granted.

1003.3.2 APPEALS OF SUSPENSION OR REVOCATION OF ACCOMMODATIONS

Inmates may appeal the Administrative Services Bureau Commander's denial, suspension or revocation of an accommodation through the inmate appeal process.

1003.4 DIETS AND MEAL SERVICE

The Administrative Services Bureau Commander should provide inmates requesting a religious diet, including fasting and/or hour of dining, a reasonable and equitable opportunity to observe their religious dietary practice. This should be done within budgetary constraints and be consistent with the security and orderly management of the detention facility.

1003.5 HAIR STYLES AND GROOMING

Unless it is necessary for the health and sanitation of the detention facility, inmates who wear head and facial hair in the observance of their religion will generally not be required to shave or cut their hair.

Any inmate whose appearance is substantially altered due to changes in facial hair or hair length may be required to submit to additional identification photographs.

1003.6 RELIGIOUS TEXTS

Religious texts should be provided to the requesting inmate, if available, and if the texts do not pose a threat to the safety, security and orderly management of the detention facility.

1003.7 RELIGIOUS SYMBOLS AND IMPLEMENTS

Religious symbols and implements used in the exercise of religion should generally be allowed unless the symbol or implement poses a threat to the safety and security of the detention facility. Alternatives to the provision of religious symbols and implements may be considered when security, safety or efficient operations may be jeopardized (e.g., substitution of a towel in lieu of a prayer rug).

Gardena Police Department

Gardena Jail Manual

Religious Programs

1003.8 RELIGIOUS GARMENTS AND CLOTHING

Inmates who practice a religion that requires particular modes of dress, garments, headgear, etc., other than standard-issue clothing, should generally be accommodated subject to the need to identify inmates and maintain security.

Head coverings shall be searched before being worn in the housing area of the detention facility and shall be subject to random searches for contraband. Personal head coverings should be exchanged in favor of department-supplied head coverings when available and appropriate.

Inmates wearing headscarves or other approved coverings shall not be required to remove them while in the presence of or while visible to the opposite sex, if they so desire. Religious garments that substantially cover the inmate's head and face shall be temporarily removed during the taking of booking and identification photographs.

1003.9 TRAINING

The Department shall provide training to members on the requirements of this policy.

1003.10 STAFF RESPONSIBILITIES

Members shall not show favoritism or preference to any religion and will not discriminate or retaliate against any inmate for participating or not participating in any religion or religious practice. Inmates are not required to participate in religious programs or activities. Members will not allow their personal religious beliefs to influence them in the daily management of the inmate population, particularly as it relates to religious practices.

Chapter 11 - Facility Design

Space and Environmental Requirements

1100.1 PURPOSE AND SCOPE

This policy describes the desired space and environmental requirements for the physical plant.

1100.2 POLICY

It is the policy of this department to comply with federal and state laws, codes and correctional standards in matters relating to jail space and environmental requirements. Any designs for renovations, modifications, additions or new construction within the detention facility should be in compliance with federal and state laws, codes and jail standards.

Planned designs for renovations, modifications, additions or new construction within the detention facility should facilitate personal communication with inmates and direct visual observation of all cells, dayrooms and recreation areas. Electronic surveillance may be used to augment the observation of inmates but shall not be used as a substitute for personal communication.

All parts of the detention facility that are accessible to the public should be accessible to and usable by disabled persons.

1100.3 DETENTION HARDWARE

All locks, detention hardware, fixtures, furnishings and equipment should have the proper security value for the areas in which they are used. The use of padlocks in place of security locks on cell or inmate housing area doors is generally prohibited, as unauthorized locking mechanisms may pose a significant threat to the safety and security of the detention facility in the event of an emergency.

1100.4 ENVIRONMENTAL REQUIREMENTS

1100.4.1 LIGHTING LEVELS

Lighting levels shall be adequate for members and inmates to perform daily activities. Night lighting levels should permit adequate illumination for supervision but should not unnecessarily interfere with the ability of inmates to sleep.

1100.4.2 NATURAL LIGHT

All inmate living areas should provide inmates with exposure to natural light, unless prohibited by security concerns.

1100.4.3 NOISE LEVEL

Noise levels at night should be sufficiently low to allow inmates to sleep. Nothing in this policy is intended to limit or impair in any way members' ability to monitor the detention facility in a manner that is consistent with safety and security and good correctional practices.

Space and Environmental Requirements

1100.4.4 VENTILATION

Ventilation systems, including those in toilet rooms and cells with toilets, should be sized and calibrated to supply fresh or circulated air in accordance with federal and state laws, codes and jail standards.

Other than an emergency situation, inmates or members shall not adjust or restrict the ventilation systems without the express permission of the supervisor. Any adjustments made to the ventilation system shall only be allowed for the duration of the emergency or until qualified maintenance personnel can adjust or repair the ventilation system.

1100.4.5 TEMPERATURE LEVELS

Temperature and humidity levels should be maintained at a level established by facility maintenance personnel and deemed comfortable and cost efficient.

Members shall immediately contact facility maintenance in the event that temperatures or humidity levels become uncomfortable.

1100.5 CELL FURNISHINGS

Each inmate housed in this detention facility should be provided with the following items:

- A sleeping surface and mattress in accordance with federal and state laws, codes and jail standards
- A writing surface and seat

1100.6 DAYROOMS

Dayrooms should be equipped with at least one shower for every 20 inmates or fraction thereof, and tables and sufficient seating for all inmates at capacity (24 CCR 1231.3.4; 24 CCR 1231.2.9). Where inmates do not have continuous access to their cells, dayrooms should also be equipped with one toilet, an immediate source of fresh potable water and lavatory with hot and cold water for every 12 inmates or fraction thereof.

1100.7 JANITOR CLOSETS

Janitor closets should be located near or inside each housing area. Each janitor closet should contain a sink and the necessary cleaning implements. Access to the janitor closets shall be controlled and supervised by members. Only inmates with a minimum security classification status shall be allowed access to the janitor closets, and then only under member supervision.

1100.8 EMERGENCY POWER

The detention facility shall be equipped with a sufficient emergency power source to operate communications, security and alarm systems in control centers, and emergency lighting in corridors, stairwells, all inmate housing areas, security control points and audio-visual monitoring systems.
