

HOW TO REPORT ILLEGAL FIREWORKS USING THE GARDENA DIRECT APP

www.gardenapd.org

(310) 323-7911

To begin reporting on Gardena Direct, please download the app from your phone's app store. Once downloaded, open the application. You must create a profile for authentication and keeping track of request. Not to worry, you can remain anonymous for all submissions on the app.

Tap the green bar near the middle of the screen to start a new request. Next, select Police Services and scroll down to select Report Illegal Fireworks. A map will open and display your current location. You have the option to move the red pin on your screen to give an exact location where illegal fireworks are being discharged. Take note that the address changes as the red pin is moved. Once you've selected your location, you will be redirected to a form where you will be able to submit photos along with any additional information you may have. When you are finished, go ahead and submit your request. You will be given a confirmation that your request has been received. You may keep track of the status of the request until it is completed.
